P. Fitzgerald,2015-07-11 Excerpt from California Sketches New and Old These Sketches wrote themselves as it were About three years ago my friend Prof Alonzo Phelps formerly of Harvard University in reply to my remark that somebody ought to preserve the vanishing phases of the early California life said Yes it ought to be done and you are the man to do it The matter was then dismissed from my mind as the flattering suggestion of a partial friend After leaving California every thing connected with my life or that had come under my observation while there assumed a fresh interest to my own mind The remark of my friend was remembered and more to gratify a kindly impulse than with a view to make a volume in snatches of such leisure as an editor gets the penciling of these humble Sketches began Now that the little book is finished I am at least half sorry it was ever begun Yet there has been a pleasure in writing it The old days have come back to me again and images that were fading have stood before me in the form and color of life Ah if I could make them stand thus before my kind readers The Sketches are all from real life In one or two instances names are disguised for obvious reasons I have told the story as I saw it and as I remember it There is no fancy sketch among these chapters About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Catalogue of the California State Library** California State Library,1898

Eighteenth Century China narrates cotton's journey from a little understood material to a cherished commodity ennobled by associations with the classical heritage of China. In the 12th century cotton, an imported crop, was plucked from the fields and entered the margins of agricultural treatises. The material was eventually acknowledged as cotton, an object distinct from silk worthy of representation. By the late 16th century, representations of the plant and of the labor used to process it were incorporated into agricultural publications. During the 18th century, cotton imagery and discussions were situated in imperial encyclopaedias further consolidating its classical legacy. The Governor general Fang Guancheng (1696-1768) deemed cotton a worthy subject for ambitious painting. In 1765 he designed the *Pictures of Cotton*, a series of sixteen paintings complete with commentary that delineated the processes of growing cotton and manufacturing fabric. He presented the *Pictures of Cotton* to the Qianlong emperor (r. 1735-1796) who inscribed his imperial verse on each scene. Knowledge about the fiber became a means to collaborate at the highest level of the court and bureaucracy. Fang replicated the series complete with imperial verses into carved stone to enable replication. The Jiaqing emperor (r. 1796-1821) likewise published the series as woodblock prints. Upon domestication, cotton advanced political legitimacy, a commodity that attained canonical status. Cotton was represented in a scopical regime formulated by the Qing imperium, and in the process the Imperially Inscribed *Pictures of Cotton* became the authoritative vision of cotton. This study is ideal for those studying Chinese art, Chinese history, Asian Studies, and history of science and technology.

What is the mysterious region between photography and the phenomenon of narrative cinema between the photogram, a single film frame, and the illusion of motion we recognise as movies? *Publications of the Historical Society of Southern California*, 1907 Annual Publication of the Historical Society of Southern California, 1907 Books of 1912- Chicago Public Library, 1923 **Smoke and Ashes** Amitav Ghosh, 2024-02-13. Named a Most Anticipated Book of 2024 by Foreign Policy, Literary Hub, and The Millions, Ghosh unravels the impact of the opium trade on global history and in his own family. The climax of a years-long project, When Amitav Ghosh began the research for his monumental cycle of novels, the *Ibis* Trilogy, he was startled to learn how the lives of the nineteenth-century sailors and soldiers he wrote about were dictated not only by the currents of the Indian Ocean but also by the precious commodity carried in enormous quantities on those currents: opium. Most surprising of all, however, was the discovery that his own identity and family history were swept up in the story. *Smoke and Ashes* is at once a travelogue, a memoir, and an essay in history, drawing on decades of archival research. In it, Ghosh traces the transformative effect the opium trade had on Britain, India, and China, as well as the world at large. The trade was engineered by the British Empire, which exported Indian opium to sell to China to redress their great trade imbalance, and its revenues were essential to the empire's financial survival. Following the profits further, Ghosh finds opium central to the origins of some of the world's biggest corporations, of America's most powerful families, and prestigious

institutions from the Astors and Coolidges to the Ivy League and of contemporary globalism itself Moving deftly between horticultural history the mythologies of capitalism and the social and cultural repercussions of colonialism in Smoke and Ashes Ghosh reveals the role that one small plant has had in making our world now teetering on the edge of catastrophe
