## History And The Concept Of Time:

*Time and History* Jörn Rüsen, 2008-01-01 This series aims at bridging the gap between historical theory and the study of historical memory as well as western and non western concepts for which this volume offers a particularly good example It explores cultural differences in conceptualizing time and history in countries such as China Japan and India as well as pre modern societies

**History of the Concept of Time** Martin Heidegger, 1985

**Time, History, and Political Thought** John Robertson, 2023-06-22 Explores the multiple ways in which different conceptions of time and history have been used to understand politics since late antiquity showing that no conception of politics has dispensed altogether with time and many have explicitly sought legitimacy in association with forms of history

**Memory, Humanity, and Meaning** Neamtu, Mihail, Tataru-Cazaban, Bogdan, 2009-01-01 On the 23rd of August 2008 Professor Andrei Pleşu has marked his sixtieth birthday In view of his distinguished service to the public welfare and his manifold contributions to academic life the editors of this volume have invited a number of Romanian and international scholars to celebrate this event with a Festschrift Colleagues friends and former students of Andrei Pleşu joined together to offer a critical appreciation of his understanding of culture in today's world The participants in this volume explore the continuing debates around the place of philosophy politics aesthetics ethics and religion in shaping the identity of Western civilization

*A History of the Work Concept* Agamenon R. E. Oliveira,2013-11-19 This book traces the history of the  
concept of work from its earliest stages and shows that its further formalization leads to equilibrium principle and to the  
principle of virtual works and so pointing the way ahead for future research and applications The idea that something  
remains constant in a machine operation is very old and has been expressed by many mathematicians and philosophers such  
as for instance Aristotle Thus a concept of energy developed Another important idea in machine operation is Archimedes  
lever principle In modern times the concept of work is analyzed in the context of applied mechanics mainly in Lazare Carnot  
mechanics and the mechanics of the new generation of polytechnical engineers like Navier Coriolis and Poncelet In this  
context the word work is finally adopted These engineers are also responsible for the incorporation of the concept of work  
into the discipline of economics when they endeavoured to combine the study of the work of machines and men together

History of the Concept of Mind PaulS. Macdonald,2017-09-29 In the 20th century theorists of mind were almost  
exclusively concerned with various versions of the materialist thesis but prior to current debates accounts of soul and mind  
reveal an extraordinary richness and complexity which bear careful and impartial investigation This book is the first single  
authored comprehensive work to examine the historical linguistic and conceptual issues involved in exploring the basic  
features of the human mind from its most remote origins to the beginning of the modern period MacDonald traces the  
development of an armature of psychical concepts from the Old Testament and Homer s works to the 18th century advocacy  
of an empirical science of the mind Along the way detailed attention is paid to the Presocratics Plato Aristotle the Stoics and  
Epicurus before turning to look at the New Testament Neoplatonism Augustine Medieval Islam Aquinas and Dante Treatment  
of Renaissance theories is followed by an unusual perhaps unique chapter on the words soul and mind in English literature  
from Chaucer to Shakespeare the story then rejoins the mainstream with analyses of Descartes Spinoza Leibniz Hobbes  
Locke Berkeley and Hume Chapter focused bibliographies

**A History of the Concept of God** Daniel A. Dombrowski,2016-02-01 Daniel A Dombrowski explores the history of the concept of God from the perspective of neoclassical  
or process theism His neoclassical approach assuages the current crisis in philosophical theism caught between a defense of  
classical theism and assertions of religious skepticism Instead the work offers Charles Hartshorne s notion of a God who  
always evolves quite unlike the allegedly perfect figure of more traditional and increasingly unsatisfactory accounts  
Dombrowski surveys the classical theists and their roots in ancient Greek philosophy before turning to contributions from the

sixteenth through twentieth centuries ultimately discussing twenty three thinkers The key figures in this history are Plato who ironically provided the philosophical basis both for classical and neoclassical concepts and three great figures in process theism Henri Bergson Alfred North Whitehead and Hartshorne The concept of God has a rich past this book argues that it can have a rich future as well

**Chinese Studies in the History and Philosophy of Science and Technology** Fan Dainian, Robert S. Cohen, 2013-03-09 The articles in this collection were all selected from the first five volumes of the Journal of Dialectics of Nature published by the Chinese Academy of Sciences between 1979 and 1985 The Journal was established in 1979 as a comprehensive theoretical publication concerning the history philosophy and sociology of the natural sciences It began publication as a response to China's reform particularly the policy of opening to the outside world Chinese scholars began to undertake distinctive original research in these fields This collection provides a cross section of their efforts during the initial phase To enable western scholars to understand the historical process of this change in Chinese academics Yu Guangyuan's On the Emancipation of the Mind and Xu Liangying's Essay on the Role of Science and Democracy in Society have been included in this collection Three of the papers included on the philosophy of science are discussions of philosophical issues in cosmology and biology by scientists themselves The remaining four are written by philosophers of science and discuss information and cognition homeostasis and Chinese traditional medicine the I Ching Yi Jing and mathematics etc Papers have been selected on the history of both classical and modern science and technology the most distinctive of which are macro comparisons of the development of science in China and the west Some papers discuss the issue of the demarcation of periods in the history of science the history of ancient Chinese mathematics astronomy metallurgy machinery medicine etc Others discuss the history of modern physics and biology the history of historiography of science in China and the history of regional development of Chinese science and technology Also included are biographies of three post eighteenth century Chinese scholars Li Shanlan 1811 1882 Hua Hengfang 1833 1902 and Cai Yuanpei 1868 1940 who contributed greatly to the introduction of western science and scholarship to China In addition three short papers have been included introducing the interactions between Chinese scholars and three great western scientists Niels Bohr Norbert Wiener and Robert A Millikan

**History in Times of Unprecedented Change** Zoltán Boldizsár Simon, 2019-06-13 Our understanding of ourselves and the world as historical has drastically changed since the postwar period yet this emerging historical sensibility has not been appropriately explained in a coherent theory of history In this book Zoltán Simon argues that instead of seeing the past the present and the future together on a temporal continuum as history we now expect unprecedented change to happen in the future in visions of the future of technology ecology and nuclear warfare and we look at the past by assuming that such changes have already happened This radical theory of history challenges narrative conceptualizations of history which assume a past potential of humanity unfolding over time to reach future fulfillment and seeks new ways of conceptualizing the altered socio cultural concerns Western societies are currently facing By creating a

novel set of concepts to make sense of our altered historical condition regarding both history understood as the course of human affairs and historical writing History in Times of Unprecedented Change offers a highly original and engaging take on the state of history and historical theory in the present and beyond Liberal Democracy as the End of History Christopher Hughes, 2012-02-20 Francis Fukuyama claims that liberal democracy is the end of history This book provides a theoretical re examination of this claim through postmodernist ideas The book argues that postmodern ideas provide a valuable critique to Fukuyama s thesis and poses the questions can we talk about a universal and teleological history a universal human nature or an autonomous individual It addresses whether postmodern theories concerning the movement of time what it means to be human and what it means to be an individual subject can be accommodated within a theory of a history that ends in liberal democracy The author argues that incorporating elements of postmodern thought into Fukuyama s theory makes it possible to produce a stronger and more compelling account of the theory that liberal democracy is the end of history The result of this is to underpin Fukuyama s theory with a more complex understanding of the movement of time the human and the individual and to show that postmodern concepts can paradoxically be used to strengthen Fukuyama s theory that the end of history is liberal democracy The book will be of interest to students and scholars of political theory postmodernism and the work of Francis Fukuyama *Memory, History, Justice in Hegel* Angelica Nuzzo, 2012-04-05 This reconstruction of the work of dialectical memory in Hegel raises the fundamental question of the principle that presides on the articulation of history and indicates in Hegel s philosophy two alternative models of conceiving history one that grounds history on ethical memory the other that sees justice as the moving principle of history *Infancy and History* Giorgio Agamben, 1993 How and why did experience and knowledge become separated Is it possible to talk of an infancy of experience a dumb experience For Walter Benjamin the poverty of experience was a characteristic of modernity originating in the catastrophe of the First World War For Giorgio Agamben the Italian editor of Benjamin s complete works the destruction of experience no longer needs catastrophes daily life in any modern city will suffice Agamben s profound and radical exploration of language infancy and everyday life traces concepts of experience through Kant Hegel Husserl and Benveniste In doing so he elaborates a theory of infancy that throws new light on a number of major themes in contemporary thought the anthropological opposition between nature and culture the linguistic opposition between speech and language the birth of the subject and the appearance of the unconscious Agamben goes on to consider time and history the Marxist notion of base and superstructure via a careful reading of the famous Adorno Benjamin correspondence on Baudelaire s Paris and the difference between rituals and games Beautifully written erudite and provocative these essays will be of great interest to students of philosophy linguistics anthropology and politics *History, Memory, and State-Sponsored Violence* Berber Bevernage, 2012-11-27 Modern historiography embraces the notion that time is irreversible implying that the past should be imagined as something absent or distant Victims of historical injustice however in contrast often claim that the past got stuck in the present and that it

retains a haunting presence History Memory and State Sponsored Violence is centered around the provocative thesis that the way one deals with historical injustice and the ethics of history is strongly dependent on the way one conceives of historical time that the concept of time traditionally used by historians is structurally more compatible with the perpetrators than the victims point of view Demonstrating that the claim of victims about the continuing presence of the past should be taken seriously instead of being treated as merely metaphorical Berber Bevernage argues that a genuine understanding of the irrevocable past demands a radical break with modern historical discourse and the concept of time By embedding a profound philosophical reflection on the themes of historical time and historical discourse in a concrete series of case studies this project transcends the traditional divide between empirical historiography on the one hand and the so called theoretical approaches to history on the other It also breaks with the conventional analytical philosophy of history that has been dominant during the last decades raising a series of long neglected big questions about the historical condition questions about historical time the unity of history and the ontological status of present and past programmatically pleading for a new historical ethics
