Excerpt from A History of French Literature The French monarchy and the French people really have their historical beginning with the crowning at Rheims of Hugues Capet Count of Paris as King of the French in the year 987 The Franks of the West were then formally separated from the Franks of the East who remained an integral part of the German Kingdom About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *A Short History of French Literature (Classic Reprint)* George Saintsbury, 2018-02-19

Excerpt from A Short History of French Literature The fourth edition of this book 1892 was printed from third with corrections not inconsiderable in number if individually of no great significance but in view of a possible further demand it seemed for more reasons than one desirable to recast the book materially for the next issue In the first place the appearance also at the Clarendon Press of Mr Toynbee's Specimens gave me an Opportunity of omitting the illustrative extracts in the first part of the present volume and so gaining a substantial amount of space These extracts had originally been included by me not so much out of predilection for them as because in the absence of any book in which English readers were presented with anything of the kind they seemed indispensable But they were something of an anomaly and I took the first Opportunity of suggesting to the Delegates of the Clarendon Press that as the need was now elsewhere and better supplied my own makeshift had better go I am much obliged to them for the promptitude with which they at once met my wishes as to recasting the book About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic

**French Literature of the Great War (Classic Reprint)** Albert Schinz, 2015-07-07 Excerpt from French Literature of the Great War The output of French war literature has been very great This may not seem surprising when one thinks of the importance of the crisis through which France has just passed but it is so when one realizes how that country had to exert all its strength to keep itself from being submerged literature in such circumstances is more than ever a luxury About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**History of French Literature, Vol. 1** Henri van Laun, 2016-06-24 Excerpt from History of French Literature Vol 1 From Its Origin to the Renaissance This latter thought leads us to a consideration which has more to do with geography than with history or at least with geography as one description and subdivision of history But we suppose that it is altogether unnecessary to dwell upon the importance of connecting every author and every literary production with the country in which he or it has been produced To read the work of a German as we should read the work of an Italian ignoring the features in each which are attributable to the sky beneath which they were born and the scenery amidst which their ideas have taken shape would be to read with closed eyes and a mind wilfully insensible to one of the greatest allurements of literature About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art

readers a liking for French literature but such sympathy will come only through an appreciation of the French as distinguished from the anglo saxon point of view Hence the introductory chapter on the Spirit of French Letters and in the body of the book the frequent references to what appear to be dominant French traits Another result of this method is the attention we give to the historical and social background Whether we have succeeded or not we have consistently tried to depict for each age the historical and social elements that produced it briefly of course with the expectation that the reader will complete the outline by reference to works dealing directly with these subjects About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The History of French Literature** Annie Lemp Konta, 2018-05 Excerpt from The History of French Literature From the Oath of Strasburg to Chanticleer The French language is not a mixture of Gallic and Latin but the popular Latin sermo plebeius introduced into Gaul by the Roman soldiers just as in the same manner the Roman language was brought into the various other provinces of Rome suppressing the indigenous dialects and with various influences brought to bear upon it evolving the Romance or neo latin languages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

History of French Literature Christiana Bridge, 2017-10-20 Excerpt from History of French Literature Adapted From the French of M Demogeot Influence of Germany from the far North from the frozen Shores Of the Arctic Seas from fir elad mountains and boundless steppes came the vast hordes which were destined to put an end to the empire Of Rome We trace their onward sweep from utmost Asia Each halting place became the cradle Of a new people Getae Goths Lombards Saxons Burgundians Scandinavians From the scorching plains Of India to the snow covered hills Of Norway a cordon was stretched round imperial Rome and as she grew weaker and more shrunken the hardy and vigorous warriors pressed on About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a

Wells, 2015-07-10 Excerpt from A Century of French Fiction This book is a study of novels not of novelists It seeks to show the development of what has come to be the chief genre in the most artistic of European literatures The limitations that this purpose involves are obvious Biography belongs here only in so far as heredity or environment influence those qualities in an author by which he in turn influences the development of fiction With some novelists such as George Sand these are very significant with others such as Daudet they are hardly significant at all The poems dramas or essays of novelists are usually passed in silence though they may be as with Sainte Beuve the chief title to literary distinction And in regard to the novels themselves this book is less concerned with what is done than with how it is done it seeks not to retell a story but to convey an artistic impression and in the space that it accords to the 115 novelists and 688 novels or short stories that it names it is less influenced by an author's popularity than by the excellence or novelty of his technic his style or his ideas of the functions ethical social philosophical or artistic of the novel Many writers are little read who have been studied by those who are read much About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Literature Through Art Helmut Anthony Hatzfeld, 2017-12-22 Excerpt from Literature Through Art A New Approach to French Literature To the literary historian a history of French literature in which art is used as the key to a better and deeper understanding of literature will be of primary concern The art historian on the other hand will take the opposite view wishing to see art elucidated by other forms of expression To us the paramount problem is the comparative analysis and appreciation of texts and pictures in their details For this purpose the historian must also be a philologist and a critic i.e. One who can analyze both texts and pictures with correctness and taste Therefore philologist and critic must be understood here in a double sense first factually in regard to interpretation and iconography and second formally in regard to stylistics and formal description From a methodological point of view philology is involved in yet another sense It is gratifying to see that the text bound analytical and stylistic method in literary history as used here and as opposed to the traditionally vague synthetic and persuasive method finds even on the non comparative level enthusiastic support from the analysts of literary style It is they who have called for a change in the way of literary history The method of explication de textes has been used for some years for historical purposes in the sense that the new literary history in the making is considered to be composed of single layers of interpreted texts as

encountered in successive epochs It is this method that is used here on a comparative basis the explications de textes having been supplemented by the explications de tableaux About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**The Extraordinary Voyage in French Literature Before 1700 (Classic Reprint)** Geoffroy Atkinson, 2015-07-06 Excerpt from The Extraordinary Voyage in French Literature Before 1700 This study was begun in October 1916 at the suggestion of Professor Gustave Lanson who was at that time lecturing at Columbia University and to whom it was my privilege to act as office assistant My research has been twice interrupted from January to March 1917 while I was in France as Secretary and Interpreter to the Rockefeller Tuberculosis Commission and again from May 1917 when I went to France as a private soldier of the United States Army until January 1919 at which time I returned to the United States and to civilian life Although I had originally intended to make a complete study of the history of the Extraordinary Voyage as a type of novel in French Literature I have been obliged by the extent of the subject to limit my study in the present volume to the period preceding the year 1700 It is my purpose to continue in a second volume the investigation of the Extraordinary Voyages published since that date It is only fitting to say that without the suggestion of Professor Lanson the present work never would have been begun and that without his continued interest it certainly never would have been completed If in its accomplishment any credit whatever is to be accorded this will have been due in large measure to the inspiration received from Professor Lanson If on the other hand errors of statement or of judgment are discovered in it they may be set down as exclusively my own About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Masters of French Literature (Classic Reprint) George McLean Harper, 2019-01-10 Excerpt from Masters of French Literature For the general reader I fancy such a history of French literature would be far more illuminating than some of the detailed hand books which bewilder the mind with thousands of names and titles and brief insufficient abstracts of books great and small There would be the difference that exists between a series of views from twenty mountain tops each one within sight of its immediate neighbors and the record made by a pedometer Or to vary this rather prolonged figure of

speech which has helped us thus far such a history would possess the advantage that a person gains from residence in a few foreign towns as compared with spending an equal amount of time in rapid travel from one meaningless hotel to another

*French History for English Children (Classic Reprint)* Sarah Brook, 2018-03-18 Excerpt from French History for English Children The country which we now call France was not always called so nor were the people who live in it always called the French When it is first mentioned which is in old Latin books written more than 1800 years ago it is called Gallia or Gaul and the people are spoken of as Gauls Gaul was in some respects the same as France is now and in some respects very different It was the same or nearly the same in its mountains rivers and some of the chief towns it was different in its roads fields villages and more than all in the people who lived in it when I say that some of the towns were the same I do not mean that they look the same now as they did then but that the Gauls had towns in many of the places where the French now have them and that they have lasted with almost the same names ever Since
