Byzantine Empire are not very consistent or very precise as to the date at which the Roman Empire ends and the Byzantine Empire begins. Sometimes the line is drawn at the foundation of Constantinople by Constantine the Great, sometimes at the death of Theodosius the Great, sometimes at the reign of Justinian, sometimes as by Finlay at the accession of Leo the Isaurian, and the historian who adopts one line of division cannot assert that the historian who adopts a different line is wrong. For all such lines are purely arbitrary. No Byzantine Empire ever began to exist; the Roman Empire did not come to an end until 1453. [The Palgrave Atlas of Byzantine History](#) J. Haldon, 2005-10-14. The dominant Mediterranean power in the fifth and sixth centuries by the time of its demise at the hands of the Ottomans in 1453, the Byzantine empire was a shadow of its former self, restricted essentially to the city of Constantinople, modern Istanbul. Surrounded by foes who posed a constant threat to its very existence, it survived because of its administration, army, and the strength of its culture, of which Orthodox Christianity was a key element. This historical atlas charts key aspects of the political, social, and economic history of a medieval empire which bridged the Christian and Islamic worlds from the late Roman period into the late Middle Ages.

The absolutism of Justinian extended to the ecclesiastical world and in church as well as in state history he occupies a position of ecumenical importance.
