E. Kaufmann, H. W. Kaufmann, 2018-10-30 A

richly illustrated history of military fortifications in ancient and medieval times For over a thousand years from the time of the Roman Empire to the classic period of castle building in the twelfth and thirteenth centuries fortified sites played a key role in European warfare This highly illustrated history gives a fascinating insight into their design and development and into the centuries of violence and conflict they were part of The study traces the evolution of fortifications starting with those of the Romans and their successors Included are the defenses erected to resist Islamic invasions and Viking raids and the castles built during outbreaks of warfare As the authors demonstrate castles and other fortifications were essential factors in military calculations and campaigns They were of direct strategic and tactical importance wherever there was an attempt to take or hold territory. The factors that influenced their location layout and construction are analyzed in this fascinating book as is the way in which they were adapted to meet the challenges of new tactics and weapons Attila the Hun Ian Hughes, 2019-09-30 A biography of the notorious tribal leader whose empire challenged the Romans Most know the name Attila the Hun but few are familiar with the full history behind this historical figure Rising to the Hunnic kingship around 434 he dominated European history for the next two decades Attila bullied and manipulated both halves of the Roman Empire forcing successive emperors to make tribute payments or face invasion Here Ian Hughes recounts Attila s rise to power attempting to untangle his character and motivations so far as the imperfect sources allow A major theme is how the two halves of the empire finally united against Attila prompting his fateful decision to invade Gaul and his subsequent defeat at the Battle of the Catalaunian Plain in 451 Integral to the narrative is analysis of the history of the rise of the Hunnic Empire the reasons for the Huns military success relations between the Huns and the two halves of the Roman Empire Attila s rise to sole power and Attila s doomed attempt to bring both halves of the Roman Empire under his dominion A history of the later roman empire, vol.1, by j.b. bury J. B. Bury,1889 Nature Contemplation in Clement of Alexandria Doru Costache, 2025-06-13 This book examines Clement of Alexandria's interdisciplinary approach to nature contemplation which he terms physiology and physics showing its internal consistency even in the absence of a clear methodological outline It reconstructs Clement's method of nature contemplation which while discernible throughout his writings does not feature as such in one place Yet it exists within the second stage of the broader threefold roadmap of spiritual advancement which progresses from ethics to physics to divine vision epoptics Specifically Clement's physics itself has three steps analysis interpretation and the spiritual vision of the world To advance through the three stages of physics one must acquire virtue contemplative skills and sound information regarding the nature of things But only transformed people whom Clement calls holy gnostics saintly sages have access to the final stage gnostic physiology This third step amounts to an insightful noetic perception of nature irreducible to either keen observation or the information gathered and processed by way of analysis and interpretation This book presents Clement's method against the backdrop of ancient disciplines of nature contemplation and as paying the way for contemporary science engaged theology The volume is suitable for postgraduate students and scholars
