History of Tennessee, Its People and Its Institutions (Classic Reprint) William Robertson Garrett, 2015-07-08

Excerpt from History of Tennessee Its People and Its Institutions The competent teacher of history demands of the text book two essential qualities First The text book must contain a clear statement of all material facts and an adequate discussion of all important topics arranged in such consecutive order as to cover the subject completely and to connect all the parts in logical sequence There must be no missing link in the chain of events The author of the text book does not share in the licence accorded to the general writer He has no right to dilate on favorite or sensational topics to the omission or exclusion of essential links in the chain of history In order to cover the subject in all its parts it is necessary that the style be concise and the scope be comprehensive If the text book be defective in this first essential quality no rhetorical excellence or charm of style can cure the defect Second In connection with the statement of each important fact and the discussion of each important topic the text book must supply carefully selected page references to the sources of information and to the best authorities in which the subject is treated more in detail than the restrictions of a school book will permit The skillful teacher makes this demand of the text book because he needs it as an aid to himself and a guide to the pupil in order to accomplish the best results He knows that the limitations of the school term will not permit him to do more than lay the foundation upon which the pupil himself in future years must build the superstructure If the teacher is ambitious that his teaching shall live in the future lives of his pupils he looks beyond the school room and is not content to prepare his pupils only for the next recitation or the next examination If he aims to train lovers of history or readers of history or writers of history he must give his pupils at least a glimpse of the rich and varied field of historical literature with some training towards forming the habit of historical research and some practice in the methods of historical investigation The text book should aid in this work by supplying references About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
