When Bad Things Happen to Privileged People Dara Z. Strolovitch, 2023-07-06 A deep and thought provoking examination of crisis politics and their implications for power and marginalization in the United States From the climate crisis to the opioid crisis to the Coronavirus crisis the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking But for every problem that political actors describe as a crisis there are myriad other equally serious ones that are not described in this way Why has the term crisis been associated with some problems but not others What has crisis come to mean and what work does it do In *When Bad Things Happen to Privileged People* Dara Z Strolovitch brings a critical eye to the taken for granted political vernacular of crisis Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders Strolovitch unpacks the idea of crisis in contemporary politics and demonstrates that crisis is itself an operation of politics She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied Dominant political actors later seized on the language of crisis to compel the use of state power but often in ways that compounded rather than alleviated inequality and injustice In this eye opening and important book Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial gender and class inequalities in the early twenty first century

Toyin Falola, Nic Hamel, 2021. Exploring issues of disability, culture, activism and policy across the African continent, this volume argues for the recognition of African disability studies as an important and emerging interdisciplinary field. While the disability rights movement of recent decades has a rich and well-documented history, it is a history mostly focused on the Global North. Disability in Africa presents an interdisciplinary approach to cultural, health and policy challenges that disability issues have raised throughout the African continent. The volume draws on the achievements of disability studies while acknowledging the demands and challenges of particular African contexts. The authors bring diverse methodological approaches and expertise to bear on these issues, ranging from anthropology and bioethics to special education and community rehabilitation. Essays consider indigenously African definitions of disability as well as exploring disability at the intersection of poverty, geography and globalized biopolitics. Contributors analyze the difficulties of implementing disability policy across the continent while also being mindful of successful approaches taken at local, national and international levels.
