2 What are Children's Literature and Young Adult Literature

2.1 Definitions Both terms Children's Literature and Young Adult Literature are ambiguous and thus not very easy to define For instance one may ask whether ChL is written by children read by children written about children written about what interests children or written for children One might generally answer that the notion of Children's Literature includes a bit of everything except the first aspect because children usually do not write literature Hunt 1996: 17 also refers to these controversies when attempting to define the term Firstly he puts it in rather general words it is a category of books the existence of which absolutely depends on supposed relationships with a particular reading audience children This statement defines the target group of ChL what means that Hunt sees it as literature which is read by children However this definition does not clarify the notion regarding the characteristics of its

field Many critiques say that the term includes books which are good for children and most particularly good in terms of emotional and moral values Hunt 1996 17 But what are emotionally and morally good values and who decides what they are This leads to the question whether ChL is specifically written for children In this case authors of such literature decide what is good as well as the parents or teachers who decide to let children read it
