Stance-Taking in Embodied and Virtual Interaction Geert Brône, Kurt Feyaerts, Elisabeth Zima, Silva H. Ladewig, 2025-08-28 A fundamental property of human language is its ability to simultaneously represent subjects objects or events and express the speaker's stance towards these representations The notion of stance taking involves a positioning along three different axes epistemic the distribution of knowledge e.g. by expressing certainty or uncertainty affective the expression of attitudes and feelings and deontic the expression of desirability or necessity of an action Psycho linguistics and neighboring fields have a long track record in the study of stance taking as a socially contextualized and recognized interpersonal phenomenon focusing on the lexical and grammatical resources that language users have at their disposal to communicate stance but also on the cognitive processes underlying this positioning In addition the phenomenon has been studied extensively in different communicative settings from spontaneous face to face communication to institutional and mediated forms of interaction from different disciplinary angles Interactional Linguistics Ethnomethodology Cognitive Psychology HCI Research etc and using different empirical methods from controlled experiments to qualitative and quantitative corpus analysis *Texas Parks & Wildlife*, 2014 **Soluções em Engenharia Mecânica - Edição 2019** Silvestre Labiak Junior, 2019-10-29 Livro com coletânea dos melhores trabalhos de conclusão de curso desenvolvidos no ano de 2018 no curso de Engenharia Mecânica da Universidade Tecnológica Federal do Paraná Campus Curitiba *Engineering Design Applications III* Andreas Öchsner, Holm Altenbach, 2020-03-05 This book provides an update on recent advances in various areas of modern engineering design such as mechanical materials computer and process engineering which provide the foundation for the development of improved structures materials and processes The modern design cycle is characterized by the interaction of different disciplines and a strong shift toward computer based approaches involving only a small number of experiments for verification purposes A major driver for this development is the increased demand for cost reduction which is also connected to environmental demands In the transportation industry e.g. automotive or aerospace

where there is a demand for greater fuel efficiency one solution is lighter structures and or improved processes for energy conversion Another emerging area is the interaction of classical engineering with the health and medical sector *Field Manual of Wildlife Diseases* Milton Friend,J.
