Border Ecology Ila

Nicole Sheren,2023-03-10 This book analyzes how contemporary visual art can visualize environmental crisis It draws on Karen Barad s method of agential realism which understands disparate factors as working together and entangled Through an analysis of digital eco art the book shows how the entwining of new materialist and decolonized approaches accounts for the nonhuman factors shaping ecological crises while understanding that a purely object driven approach misses the histories of human inequality and subjugation encoded in the environment The resulting synthesis is what the author terms a border ecology an approach to eco art from its margins gaps and liminal zones deliberately evoking the idea of an ecotone This book is suitable for scholarly audiences within art history criticism and practice but also across disciplines such as the environmental humanities media studies border studies and literary eco criticism Sustainability Julie Sze,2018-07-03 A critical resource for approaching sustainability across the disciplines Sustainability and social justice remain elusive even though each is unattainable without the other Across the industrialized West and the Global South unsustainable practices and social inequities exacerbate one another How do social justice and sustainability connect What does sustainability mean and most importantly how can we achieve it with justice This volume tackles these questions placing social justice and interdisciplinary approaches at the center of efforts for a more sustainable world Contributors present empirical case studies that illustrate how sustainability can take place without contributing to social inequality From indigenous land rights climate conflict militarization and urban drought resilience the book offers examples of ways in which sustainability and social justice strengthen one another Through an understanding of history diverse cultural traditions and complexity in relation to race class and gender this volume demonstrates ways in which sustainability can help to shape better and more robust solutions to the world s most pressing problems Blending methods from the humanities environmental sciences and the humanistic social sciences this book offers an essential guide for the next generation of global citizens *Gaming Utopia* Claudia Costa Pederson,2021-04-06 In *Gaming Utopia Ludic Worlds in Art Design and Media* Claudia Costa Pederson analyzes modernist avant garde and contemporary video games to challenge the idea that gaming is an exclusively white heterosexual male corporatized leisure activity and reenvisions it as a catalyst for social change By looking at over fifty projects that together span a century and the world Pederson explores the capacity for sociopolitical commentary in virtual and digital realms and highlights contributions to the history of gaming by women queer and transnational artists The result is a critical tool for understanding video games as imaginative forms of living that offer alternatives to our current reality With an interdisciplinary approach *Gaming Utopia* emphasizes how game design creation and play can become political forms of social protest and examines the ways that games as art open doors to a more just and peaceful world **The Routledge Companion to Architecture and Social Engagement** Farhan Karim,2018-05-11 Socially engaged architecture is a broad and emerging architectural genre that promises to redefine architecture from a market driven profession to a mix of social business altruism and activism that intends to eradicate poverty resolve social exclusion and construct an egalitarian global

society The Routledge Companion to Architecture and Social Engagement offers a critical enquiry of socially engaged architecture's current context characterized by socio-economic inequity, climate change, war, increasing global poverty, microfinance, the evolving notion of professionalism, the changing conception of public and finally the growing academic interest in re-visioning the social role of architecture. Organized around case studies from the United States, Brazil, Venezuela, the United Kingdom, South Africa, Rwanda, Burkina Faso, Nigeria, Nepal, Pakistan, Iran, Thailand, Germany, Australia, Taiwan, and Japan, the book documents the most important recent developments in the field. By examining diverse working methods and philosophies of socially engaged architecture, the handbook shows how socially engaged architecture is entangled in the global politics of poverty, reconstruction of the public sphere, changing role of the state, charity, and neoliberal urbanism. The book presents debates around the issue of whether architecture actually empowers the participants and alleviates socio-economic exclusion or if it instead indirectly sustains an exploitative capitalism. Bringing together a range of theories and case studies, this companion offers a platform to facilitate future lines of inquiry in education, research, and practice. **With**

Pleasure Anna Katz, 2019-01-01 A timely and expansive survey of a groundbreaking American art movement that overturned aesthetic hierarchies in a riot of color and ornamentation. The Pattern and Decoration movement emerged in the 1970s as an embrace of long-dismissed art forms associated with the decorative. Pioneering artists such as Miriam Schapiro (1923-2015), Joyce Kozloff (b. 1942), Robert Kushner (b. 1949), and others appropriated patterns frequently from non-Western decorative arts to produce intricate, often dizzying or gaudy designs in media ranging from painting, sculpture, and collage to ceramics, installation art, and performance. This dazzling book showcases an astonishing array of works by more than 40 artists from across the United States, examining the movement's defiant adoption of art forms traditionally viewed as feminine, craft-based, or otherwise inferior to fine art. In addition to offering an overview of the Pattern and Decoration movement as it is commonly recognized, this volume considers artists of the period who are not typically associated with the movement. Rethinking the significance of patterns and the decorative in postwar American art, this panoramic view provides new insights into abstraction, feminism, and installation art. Essays explore the movement's feminist methods and values, including Miriam Schapiro's *femmage* practice, its impact on contemporary abstract painting, and its relationship to postmodern architecture and design. Artist biographies, an exhibition history, and reprints of historically significant writings further establish *With Pleasure* as the most expansive publication on the subject. **The Roof Garden Commission: Lauren Halsey** Abraham

Accompanied by new photography and unpublished sketches from Halsey's studio, this compact volume contains an

insightful essay by curator Abraham Thomas that examines Halsey's artistic process and considers this installation in the context of her past work In a revealing interview with poet Douglas Kearney the artist discusses her diverse influences which include ancient Egyptian relief carving funk music Afrofuturism and the architecture of L A and elaborates on the importance of community building and engagement in the spaces she creates **Dreams Unreal** Titus O'Brien,2020-01-15 The psychedelic rock poster is one of the most explosively inventive instantly recognisable and profoundly influential aesthetic movements of the last century The poster art that gave visual life to the amazing music that sprang up across the Bay Area from 1965 to 1970 lives on in Dreams Unreal **NERD - New Experimental Research in Design** Michael Erlhoff,Wolfgang Jonas,2018-11-05 Design has long expressed and established itself as an independent research competence a fact that also companies institutions and politicians have come to acknowledge What is still needed however is a stronger public platform for design to confidently reflect upon this process and to establish and communicate the specific innovative and experimental dimension of design research For this reason BIRD the Board of International Research in Design has developed the New Experimental Research in Design NERD format The edited conference contributions of twelve young researchers from all over the world provide an impressive and diverse and insightful range of intelligent and inspiring approaches in design research giving rise to further debate and action in the rapidly evolving field Technocrats of the Imagination John Beck,Ryan Bishop,2020-03-13 John Beck and Ryan Bishop explore the 1960s interdisciplinary art and technology collaborations between American avant garde artists and the military industrial complex that took place in universities private labs and museums
