Pauline Relyea Anderson, Eugene Newton Anderson, 1961 *Handbook of Medieval Studies* Albrecht Classen, 2010-11-29
This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades. The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves about the current status of research in the field. The handbook consists of four parts. The first large section offers articles on all of the main disciplines and discussions of the field. The second section presents articles on the key concepts of modern medieval studies and the debates therein. The third section is a lexicon of the most important text genres of the Middle Ages. The fourth section provides an international bio-bibliographical lexicon of the most prominent medievalists in all disciplines. A comprehensive bibliography rounds off the compendium. The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together. **Reader's Guide to Music** Murray Steib, 2013-12-02
The Reader's Guide to Music is designed to provide a useful single volume guide to the ever increasing number of English language book length studies in music. Each entry consists of a bibliography of some 3-20 titles and an essay in which these titles are evaluated by an expert in the field in light of the history of writing and scholarship on the given topic. The more than 500 entries include not just writings on major composers in music history but also the genres in which they worked from early chant to rock and roll and topics important to the various disciplines of music scholarship from aesthetics to gay lesbian musicology. *Studying the Life of Saint Francis of Assisi* William Hugo, 2011
General readers will enjoy learning about Saint Francis in this book and how hagiography shaped the public stories of medieval saints. **Young Citizens of the World**
Marilynne Boyle-Baise, Jack Zevin, 2009-03-03
This text takes a clear stance. Social studies is about citizenship education. Citizenship not only as a noun but as a verb something one DOES. Based on this clear curricular and pedagogical purpose it lays out a holistic and multicultural three part process for civic preparation becoming informed thinking it through and taking action. Six outstanding teaching strategies and teaching learning projects throughout bring this framework life.
