Robert Greenwood, 1980 **The Legacy of Indian Indenture** Maurits S. Hassankhan, Lommarsh Roopnarine, Hans
Ramsoedh, 2016-11-10 This book is the second publication originating from the conference Legacy of Slavery and Indentured
Labour Past present and future which was organised in June 2013 by the Institute of Graduate Studies and Research IGSR
Anton de Kom University of Suriname The articles are grouped in four sections Section one concentrates on indenture in the
Caribbean and the Indian Ocean and includes four diverse but inter related chapters and contributions These reveal some
newly emerging impressive trends in the study of indenture essentially departing from the over used neo slave scholarship
Not only are new concepts explored and analysed but this section also raises unavoidable questions on previously published
studies on indenture Section two shows that there are many areas that need to be re examined and explored in the study of
indenture The chapters in this section re examine personal narratives of indentured labourers the continuous connection
between the Caribbean and India as well as education and Christianization of Indians in Trinidad The result is impressive The
analysis of personal accounts or voices of indentured servants themselves certainly provides an alternative perception to
archival information written mostly by the organizers of indenture Section three in this volume focuses on ethnicity and
politics In segmented societies like Suriname Guyana and Trinidad Tobago institutional politics and political mobilization are
mainly ethnically based In Suriname Trinidad Tobago and Guyana this has led to ethnic and political tensions These themes
are explored in these three articles Section four addresses health medicine and spirituality themes which until recently have
received little attention The first article examines the historical impact of colonialism through indentureship on the health
health alternatives and health preferences of Indo Trinidadians from the period between 1845 to the present The second
examines the use of protective talismans by Indian indentured labourers and their descendants Little or no psychological
research has been done on the spiritual world of Indian immigrants enslaved Africans and their respective descendants with
special reference to the use of talismans *Emancipation and Emigration a Plan to Transfer the Freedmen of the South to

stage from which to understand how national conversations about the place of free blacks in early America originated and evolved and importantly the role that colonizationOCosupporting the emigration of free and emancipated blacks to AfricaOCoplayed in national and international antislavery movements Beverly C TomekOCO's meticulous exploration of the archives of the American Colonization Society PennsylvaniaOCO's abolitionist societies and colonizationist leaders both black and white enables her to boldly and innovatively demonstrate that in Philadelphia at least the American Colonization Society often worked closely with other antislavery groups to further the goals of the abolitionist movement In *Colonization and Its Discontents* Tomek brings a much needed examination of the complexity of the colonization movement by describing in depth the difference between those who supported colonization for political and social reasons and those who supported it for religious and humanitarian reasons Finally she puts the black perspective on emigration into the broader picture instead of treating black nationalism as an isolated phenomenon and examines its role in influencing the black abolitionist agenda

the freedmen in obtaining their lands at government price together with such an outfit as will enable them to remove their families and commence farming on their own account to receive and disburse all moneys contributed for the above purposes appoint such agents as may be necessary in the several States to promote emigration and carry forward the following plan of operations until the freedmen and their families who desire it shall be removed to better homes and more civilized society entirely away from the barbarism of slavery and the pernicious doctrine that States rights are supreme and national rights are subordinate

A history of emigration Stanley Currie Johnson,1966 **Report of the Select Committee on Emancipation and Colonization : with an Appendix** United States. Congress. House Select Committee on Emancipation and Colonization,1862 **Emigrants in Chains** Peter Wilson Coldham,1992

In a story largely untold until now Peter Coldham s groundbreaking study demonstrates once and for all that the recruitment of labour for the American colonies was achieved in large measure through the emptying of English prisons workhouses brothels and houses of correction as felons rogues and social outcasts were transported fated to toil in the tobacco growing colonies of Virginia and Maryland Supported by a massive array of documentary evidence and first hand reports the author lays the focus on the emergence and use of transportation as a means of dealing with an unwanted population dwelling at length on the processes involved the men charged with the administration of the system of transportation or engaged in transportation as a business then proceeding with a fascinating look at the transportees themselves their lives and hapless careers and their reception in the colonies Few transportees contrived to return to their native country when their sentences expired and it must be assumed that most such involuntary emigrants were assimilated into colonial society Their untold story may lack the romance of the cavaliers of Virginia and Maryland the heroic ring of a dispossessed aristocracy but it has the stark accent of truth This is a story to challenge common perceptions and attitudes about the peopling of the American colonies
