Killing For The Company:

Killing for Company Brian Masters, 1995 On February 9th 1983 Dennis Nilsen was arrested at his Muswell Hill home after human remains had been identified as the cause of blocked drains Within days he had confessed to fifteen gruesome murders over a period of four years His victims all young homosexual men had never been missed Brian Masters with Nilsen's full cooperation has produced a study of a murderer's mind which is unique of its kind KILLING FOR COMPANY must stand as one of the most remarkable and accurate accounts ever written of the singular relationship between a mass murderer and a society Brian Masters in the writing has achieved the impossible Though dealing with sensational and horrific matters he has managed to treat his material with such objectivity and restraint that what we have is not a penny dreadful from the Hammer House of Horror but a bloody masterpiece BERYL BAINBRIDGE Observer

Faller, 2013-01-22 This book contains never before published information including artillery firing tables for an Indiana infantry regiment converted to heavy artillery It concentrates upon these Hoosiers three and a half years of duty in the Trans Mississippi Theater and Gulf states during the Civil War often as a separate command They acted as infantry cavalry and light artillery with captured cannons before being converted to heavy artillery in 1863 Their cannons

and artillery equipment were hauled by hundreds of mules The regiment participated in the taking of New Orleans securing an important rail link to Morgan City Louisiana the Teche Campaign the siege and reduction of Port Hudson the Red River Campaign and sieges and reductions of Fort Gaines Fort Morgan Spanish Fort and Fort Blakely Alabama *Mills' Annotated Statutes of the State of Colorado* Colorado,1904 **Cutting the Vines of the Past** Tamara Giles-Vernick,2002 Cutting the Vines of the Past offers a novel argument African ways of seeing and interpreting their environments and past are not only critical to how historians write environmental history they also have important lessons for policymakers and conservationists Tamara Giles Vernick demonstrates how various outsiders intervening in African land use practices have repeatedly met failure because of their inability or unwillingness to understand how Africans see their land and their pasts Giles Vernick takes as her focus the environmental and historical perceptions and knowledge of the Mpiemu people in the Central African Republic She argues that Mpiemu opposition to a modern environmental conservation project the Dzanga Ndoki National Park and the Dzanga Sangha Special Reserve derives from the people's interpretations of their past experiences with environmental interventions imposed by concessionary companies colonial officials other Africans Christian missionaries and the postcolonial state At the same time Mpiemu people associate these contemporary conservationists with the bosses and Christian missionaries of the colonial past viewing them as sources of jobs consumer goods and other support Giles Vernick's argument will interest conservationists and policymakers as well as environmental historians By examining Africans environmental and historical ways of seeing and knowing and by revealing how these have changed Giles Vernick offers a fresh perspective on the writing of environmental history National Wool Grower ,1921 Translating Property María E. Montoya,2005-05-15 When American settlers arrived in the southwestern borderlands they assumed that the land was unencumbered by property claims But as María E. Montoya shows the Southwest was no empty quarter simply waiting to be parceled up Although Anglo farmers claimed absolute rights under the Homestead Act their claims were contested by Native Americans who had lived on the land for generations Mexican magnates like Lucien Maxwell who controlled vast parcels under grants from Mexican governors and foreign companies who thought they had purchased open land The result was that the Southwest inevitably became a battleground between land regimes with radically different cultural concepts The struggle over the Maxwell Land Grant a 1.7 million acre tract straddling New Mexico and Colorado demonstrates how contending parties reinterpreted the meaning of property to uphold their claims to the land Montoya reveals how those claims with their deep historical and racial roots have been addressed to the satisfaction of some and the bitter frustration of others Translating Property describes how European and American investors effectively mistranslated prior property regimes into new rules that worked to their own advantage and against those who had lived on the land previously Montoya explores the legal political and cultural battles that swept across the Southwest as this land was drawn into world market systems She shows that these legal issues still have real meaning for thousands of Mexican Americans who continue to fight for land

granted to their families before the Treaty of Guadalupe Hidalgo or for continuing communal access to land now claimed by others This new edition of Montoya s book brings the land grant controversy up to date A year after its original publication the Colorado Supreme Court tried once more to translate Mexican property ideals into the U S system of legal rights and in 2004 the Government Accounting Office issued the federal government s most comprehensive effort to sort out the tangled history of land rights concluding that Congress was under no obligation to compensate heirs of land grants Montoya recaps these recent developments further expanding our understanding of the battles over property rights and the persistence of inequality in the Southwest
