Killing Patton

by Bill O'Reilly and Martin Dugard

Through the centuries, many of the world's most influential people, organizations and nations have met their demise or their thorough dismantling in dramatic fashion. But in some cases, mystery shrouds the how's and why's of these culminations, including those involving U.S. Presidents, religious leaders and military heroes and villains.

In their 13-book *Killing* series, political commentator and New York Times bestselling author Bill O'Reilly and Martin Dugard have collaborated to present spellbinding narratives of the events surrounding some of these deaths and destructions. Their historical thrillers delve deeply into the personalities and lives of their human subjects, the evolution of organizations that profoundly affected society and the aftermath of extraordinary circumstances that changed history.

One of the books in this fascinating series is *Killing Patton: The Strange Death of World War II's Most Audacious General*. Arguably the most famous military leader in that global conflict, George S. Patton died just a few months after the conclusion in an accident that sparked conspiracy theories. This gripping book takes readers inside the final year of the war and recounts the events surrounding the accident, naming names of those who wanted him silenced.

Patton had been stripped of his command just three months prior to his death by Dwight Eisenhower, military governor of the American-occupied zone of Germany for Patton's reluctance to "denazify" post-war Germany, as well as for his Nazi party to American political parties. On December 9, 1945, the day he was riding collided with an American Army truck.
