Killing Titan War Dogs:

Killing Titan Greg Bear, 2024-09-24 A veteran sergeant and his surviving team battle for survival on Saturn's moon in this military science fiction sequel by a New York Times bestseller. A new planet. A new battle. Same war. Master Sergeant Michael Venn returns to the war zone of Mars to further his investigation into the Drifters' ancient artifacts suddenly reawakened on the red planet. But soon his team is driven to Saturn's moon Titan where they'll discover new truths about the Drifters, the origin of life in our solar system, and the plans of the supposedly benevolent Gurus who have been sponsoring and supporting humanity in their fight against outside invaders. **Killing Titan** is the second book in the epic interstellar **War Dogs** trilogy from master of science fiction Greg Bear. A satisfying sequel. Readers will appreciate the mix of fast-paced military fiction and eons-long mystery, a blend of brutal and sublime in which life is precious no matter how vast the scope or the type of life. Publishers Weekly does not disappoint with both vivid planetology and traditional mil SF attention to exotic environment, combat gear, and operations. Add a cliffhanger ending and the promise of continuing possibly cosmic vastening of the meta-story and you have as strong a mid-trilogy volume as you could want. **Locus**

The War Dogs Trilogy Greg Bear, 2017-09-12 Collected in a single volume for the first time, the epic **War Dogs** trilogy of interstellar war from a master of science fiction. The Gurus made their presence on Earth known thirteen years ago, providing technology and scientific insights far beyond what mankind was capable of. They became indispensable advisors and promised even more gifts that we just couldn't pass up. But they were followed by mortal enemies, the Antagonists, from sun to sun, planet to planet, and now the Gurus are stretched thin and they need humanity's help. Our first bill has come due. Skyrines like Michael Venn have been volunteered to pay the price. They face insidious enemies who were already inside the solar system, establishing a beachhead on Mars. Venn and his comrades will be lucky to make it out alive, let alone preserve the future of all of mankind. **War Dogs**

Greg Bear, 2014-10-14 An epic interstellar tale of war from a master of science fiction. One more tour on the red. Maybe my last. They made their presence on Earth known thirteen years ago, providing technology and scientific insights far beyond what mankind was capable of. They became indispensable advisors and promised even more gifts that we just couldn't pass up. We called them Gurus. It took them a while to drop the other shoe. You can see why looking back. It was a very big shoe completely slathered in crap. They had been hounded by mortal enemies from sun to sun, planet to planet, and were now stretched thin and they needed our help. And so our first bill came due. Skyrines like me were volunteered to pay the price. As always, these enemies were already inside our solar system and were moving to establish a beachhead, but not on Earth. On Mars. **Rogue Planet: Star Wars Legends**
