*Introducing Economics: A Critical Guide for Teaching* Mark H. Maier, Julie Nelson, 2014-12-18 Make economics resonate to high school students. This practical handbook will help economics and social studies teachers foster critical thinking by introducing students to the real-life dimensions of the major controversies in contemporary economics. Filled with useful teaching tips and user-friendly information on finding engaging materials and activities for the classroom, the book also includes detailed coverage of the Voluntary National Content Standards for economics. *Introducing Economics* is a one-stop resource for high school teachers who want to make economics relevant to their students' lives. It includes more than 50 sections with lists of suggested Activities and Resources, many with Internet links. It features boxed Hints for Clear Teaching tips for presenting particularly difficult topics. It provides an annotated resource guide to more than 30 organizations involved in economics education with associated Internet links. It follows the flow of topics in a typical economics course. It addresses real-life topics that are ignored or glossed over in traditional textbooks: economics and the environment, the distribution of income and wealth, discrimination, labor unions, globalization, the power of corporations, and more. It offers critical guidance for meeting all 20 Voluntary National Content Standards in economics and also provides an overview of the political and intellectual history and contemporary state of economics education. **Economics Today** Pulsinelli, 1988

**Just in Time Teaching** Scott Simkins,Mark

Maier,2023-07-03 Just in Time Teaching JiTT is a pedagogical approach that requires students to answer questions related to an upcoming class a few hours beforehand using an online course management system While the phrase just in time may evoke shades of slap dash work and cut corners JiTT pedagogy is just the opposite It helps students to view learning as a process that takes time introspection and persistence Students who experience JiTT come to class better prepared and report that it helps to focus and organize their out of class studying Their responses to JiTT questions make gaps in their learning visible to the teacher prior to class enabling him or her to address learning gaps while the material is still fresh in students minds hence the label just in time JiTT questions differ from traditional homework problems in being designed not only to build cognitive skills but also to help students confront misconceptions make connections to previous knowledge and develop metacognitive thinking practices Students consequently spend more time on course concepts and ideas but also read their textbooks in ways that result in more effective and deeper learning Starting the class with students work also dramatically changes the classroom learning environment creating greater student engagement This book demonstrates that JiTT has broad appeal across the academy Part I provides a broad overview of JiTT introducing the pedagogy and exploring various dimensions of its use without regard to discipline Part II of the book demonstrates JiTT s remarkable cross disciplinary impact with examples of applications in physics biology the geosciences economics history and the humanities Just in Time Teaching article from The Hispanic Outlook in Higher EducationReprinted with permission from Hispanic Outlook in Higher Education Magazine [www.hispanicoutlook.com](http://www.hispanicoutlook.com) **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
