Marriage Adolf Guggenbühl-Craig, 2001 Revised Edition Divorce and children sexuality and well being perversions and affairs sacrifice and individuation these are only some of the emotional and psychological issues that Adolf Guggenbühl-Craig examines with his customary vigor and deceptively easy prose style This brilliant Swiss psychiatrist famous for his book *Power in the Helping Professions* and his expertise on psychopathy examines marriage against the background of individuals and their search for soul thereby questioning and radicalizing our controversial notions of what constitutes a happy marriage or even if happiness in a marriage is necessary to be successful **Marriage, Dead Or Alive** Guggenbühl-Craig, Adolf, 1981

The Development of the Family and Marriage in Europe Jack Goody, 1983-07-07 Around 300 A D European patterns of marriage and kinship were turned on their head What had previously been the norm marriage to close kin became the new taboo The same applied to adoption the obligation of a man to marry his brother's widow and a number of other central practices With these changes Christian Europe broke radically from its own past and established practices which diverged markedly from those of the Middle East North Africa and Asia In this highly original and far reaching work Jack Goody argues that from the fourth century there developed in the northern Mediterranean a distinctive but not undifferentiated kinship system whose growth can be attributed to the role of the Church in acquiring property formerly held by domestic groups He suggests that the early Church faced with the need to provide for people who had left their kin to devote themselves to the life of the Church regulated the rules of marriage so that wealth could be channelled away from the family and into the Church Thus the Church became an interitor acquiring vast tracts of property through the alienation of familial rights At the same time the structure of domestic life was changed dramatically the Church placing more emphasis on individual wishes on conjugality and on spiritual rather than natural kinship Tracing the consequences of this change through to the present day Jack Goody challenges some fundamental assumptions about the making of western society and provides an alternative focus for future study of the European family kinship structures and marriage patterns The questions he raises will provoke much interest and discussion amongst anthropologists sociologists and historians **Official Gazette**
