cover general concepts of family function and dysfunction family therapy and family oriented interventions all in an easy to read and digestible manner This practical clinical guide helps clinicians work within family systems by reviewing clinical practice considerations current research and training issues in part through real world case examples **STRONG IN THE STORM** Mutea Rukwaru, 2017-12-20 Marriage is one of the oldest institutions in the world It is an institution bedeviled with a lot of challenges It is ironical that you are given a marriage certificate without having graduated You don't even graduate in the college of marriage There are no leaves half terms or holidays Marriage is a relationship and all relationships have disagreements How successful relationships are has a lot to do with how those disagreements are handled Most of the problems encountered in marriage is due to the fantasy we have about marriage life From the moment Romeo sets his eyes on Juliet to the fairy tale climax when Cinderella captures her prince young people are taught that falling in love is the one and only essential requirement for marriage If you wish to make your marriage work then the love between you can't simply be based on feelings That's because feelings change like moods If romance were the sole factor determining the duration of a union most marriages would end in less than a year Love must be both a feeling and a decision Most marital relationships are weakened by the issues of sex money identity and extended family members In today's world time is becoming elusive Remember a time a husband and wife devote to one another determines the quality of their relationship The stresses of life whether they are financial parental family related or work related can negatively impact on marriage and lead to unnecessary arguments Spouses who don't prioritize their time together get caught in the trap of drifting away from one another due to the pressures of life As time goes on and children get older and jobs become demanding you may not realize that your needs are changing and you dread change With time you will find that by investing in your marriage and spending time with one another you will limit the number of disagreements you have Your sexual life will improve and you are less likely to be involved in extramarital affairs The quality of your marriage is the single most important factor in raising healthy well adjusted children Husbands and wives who love and respect each other raise children who have healthy values self esteem and good relationship skills Wives should not neglect their husbands Remember your husband was there before your children were born and he'll be there long after your children have moved on in life If you show contempt toward your husband your daughter will treat her husband that way and your son will expect his wife to have contempt for him Your husband needs to occupy the number one spot in your heart You cannot place your children or extended family ahead of him in your heart If you don't put him first not only will that injure him but it will destroy your relationship and eventually make him run away and this will harm the lives of your children Oftentimes men feel like they only get their wife's attention after everyone else the kids the pets and the women have had their needs met He gets what's left over after everyone else is taken care of It is also important to note that happily married spouses are satisfied with their sexual relationships A spouse who makes you feel important who is kind gentle exciting and good with children and who is sexually satisfying and prone to

sexual experimentation most powerfully influences your marital satisfaction You can add zest to your love life by enhancing appeal as a spouse by having more intimate conversations and by showing more consideration and non sexual affection Then add some novelty and creativity to your lovemaking Sex is so critical in marriage and any relationship at marriage level devoid of it is at risk Sex can heal illnesses and alleviate depression From a man s perspective there are not many things more important than sex Sex not only fulfils a physical need in men and women but it also fulfils a psychological need In reference to men sex heals a man the same way food sleep and medicine can heal an injured sick body Men are intensely physical and so the physical act of sex plays a big role in their lives Women enjoy sex nearly as much as men do they just don t obsess it quite as much It is of interest to note that if a man s wife is not interested in him physically for whatever reason of which probably it isn t necessarily her fault and some young girls come along who shows an interest in him as a man many men are easily swayed into having these needs fulfilled Some of it may be due to ego but much of that need involves the fact that a man cannot feel truly loved if he is not having his physical needs met When both men and women are satisfied sexually they will all be having satisfied marriage lives Sex is such a great power in the world But it is women who have tremendous sexual power What does this power look like What are the dynamics of sex Why do spouses stray Is it a matter of life and death What are the complex reasons behind extramarital sex Is sex so critical that without proper handling families will degenerate to the primordial times where sexual punalua sexual communism was the practice Take an exciting walk through strong in the storm to find answers to this life s maze When you unearth the mystery of this labyrinth then you will be in a position to advice colleagues friends and those in the byways of orchestra of life how to paddle this tricky canoe In a nutshell a husband and wife should sail the seas of life in the same boat rowing together trimming the sails together and making sure the whole operation runs smoothly together but ironically many spouses are actually in two different boats Yet the two won t truly become one until they do get into the same boat
