Dickens, Family, Authorship Lynn Cain, 2017-05-15 Drawing on a wide range of Dickens s writings including all of his novels and a selection of his letters journalism and shorter fiction Dickens Family Authorship provides a provocative account of the evolution of an author from whose psychological honesty and imaginative generosity emerged precocious fictional portents of Freudian and post Freudian theory The decade 1843 1853 was pivotal in Dickens s career A phase of feverish activity on both personal and professional fronts it included the irrevocable souring of his relations with his parents the peripatetic residence in continental Europe and a massive proliferation of writing and editing activities including the aborted autobiography It was a period of astounding creativity which consolidated Dickens s authorial and financial stature It was also one tainted by loss the deaths of his father sister and daughter and the alarming desertion of his early facility for composition Lynn Cain s substantial study of the four novels produced during this turbulent decade Martin Chuzzlewit Dombey and Son David Copperfield and Bleak House traces the evolution of Dickens s creative imagination to discover in the modulating fictional representation of family relationships a paradigm for his authorial development Closely argued readings demonstrate a reorientation from a patriarchal to a maternal dynamic which signals a radical shift in Dickens s creative technique Interweaving critical analysis of the four novels with biography and the linguistic and psychoanalytic writings of modern theorists especially Kristeva and Lacan Lynn Cain explores the connection between Dickens s susceptibility to depression during this period and his increasingly self conscious exploitation of his own mental states in his fiction

Dickens and the Myth of the Reader Carolyn Oulton, 2016-11-10 Cover Half Title Title Page Copyright Page Contents Acknowledgements Introduction Creating the Reader and Writing the Writer 1 Reciprocal Readers and the 1830s 40s 2 The Hero of His Life 3 First Person Narrators and Editorial Conducting Limited Intimacy and the Shared Imaginary 4 Decoding the Text 5 Afterlives Bibliography Index **The Victorian Baby in Print** Tamara S. Wagner, 2020-10-15 The Victorian Baby in Print Infancy Infant Care and Nineteenth Century Popular Culture explores the representation of babyhood in Victorian Britain The first study to focus exclusively on the baby in nineteenth century literature and culture this critical analysis

discusses the changing roles of an iconic figure A close look at the wide ranging portrayal of infants and infant care not only reveals how divergent and often contradictory Victorian attitudes to infancy really were but also challenges persistent clichés surrounding the literary baby that emerged or were consolidated at the time and which are largely still with us Drawing on a variety of texts including novels by Charles Dickens Wilkie Collins Mary Elizabeth Braddon Mrs Henry Wood and Charlotte Yonge as well as parenting magazines of the time childrearing manuals and advertisements this study analyses how their representations of infancy and infant care utilised and shaped an iconography that has become definitional of the Victorian age itself The familiar clichés surrounding the Victorian baby have had a lasting impact on the way we see both the Victorians and babies and a critical reconsideration might also prompt a self critical reconsideration of the still burgeoning market for infant care advice today

artifacts and as markers of proper Englishness *The Empire Inside Indian Commodities in Victorian Domestic Novels* reveals how Indian imports encapsulated new ideas about both the home and the world in Victorian literature and culture In novels by Charlotte Brontë Charles Dickens and Anthony Trollope the regularity with which Indian commodities appear bespeaks their burgeoning importance both ideologically and commercially Such domestic details as the drinking of tea and the giving of shawls as gifts point us toward suppressed connections between the feminized realm of private life and the militarized realm of foreign commerce Tracing the history of Indian imports yields a record of the struggles for territory and political power that marked the coming into being of British India reading the novels of the period for the ways in which they infuse meaning into these imports demonstrates how imperialism was written into the fabric of everyday life in nineteenth century England Situated at the intersection of Victorian studies material cultural studies gender studies and British Empire studies *The Empire Inside* is written for academics graduate students and advanced undergraduates in all of these fields Suzanne Daly is Associate Professor of English University of Massachusetts Amherst

Bleak House Charles Dickens, 1996-06-06 *Bleak House* Dickens's most daring experiment in the narration of a complex plot challenges the reader to make connections between the fashionable and the outcast the beautiful and the ugly the powerful and the victims Nowhere in Dickens's later novels is his attack on an uncaring society more imaginatively embodied but nowhere either is the mixture of comedy and angry satire more deftly managed *Bleak House* defies a single description It is a mystery story in which Esther Summerson discovers the truth about her birth and her unknown mother's tragic life It is a murder story which comes to a climax in a thrilling chase led by one of the earliest detectives in English fiction Inspector Bucket And it is a fable about redemption in which a bleak house is transformed by the resilience of human love ABOUT THE SERIES For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe Each affordable volume reflects Oxford's commitment to scholarship providing the most accurate text plus a wealth of other valuable features including expert introductions by leading authorities helpful notes to clarify the text up to date bibliographies for further study and much more

[Narratives of Injury](#) Rosalyn Buckland, 2024-11-29 *Narratives of Injury* redescribes the history of injury from the perspective of those most at risk rather than medical professionals and other outsiders Refocusing on the first hand perspectives found in literary texts and journalistic accounts it uncovers a self-conscious tradition of mining stories running through nineteenth century writing The book examines both non canonical authors and famous novelists including Charles Dickens Joseph Skipsey G A Henty E H Burnett George Eliot Edward Tireswell H G Wells and D H Lawrence Their narratives revise our understanding both of injury and of the radical potential of fiction Sudden physical injuries have often been configured as fundamentally unknowable by the victims themselves particularly in studies of nineteenth century literature and culture Likewise narratives of

psychological trauma have been largely understood in Cathy Caruth's words as the attempt to master what was never fully grasped in the first place. Such readings privilege the reader as a necessary interpreter of physical or psychological injury. By contrast, *Narratives of Injury* reasserts the significance of patients' own experiences, choices, and actions.
