Martyrdom In Islam Themes In Islamic History:

Martyrdom in Islam David Cook,2007-01-15 In recent times Islamic martyrdom has become associated with suicide missions conducted by extremists However as David Cook demonstrates this type of martyrdom is very different from the classical definition which condemned suicide and stipulated that anyone who died a believer could be considered a martyr Ideas about martyrdom have evolved to suit prevailing circumstances and it is the evolution of these interpretations that Cook charts in this fascinating history The book covers the earliest sources on martyrdom including those from the Jewish and Christian traditions discussions about what constituted martyrdom and differences in attitudes between Sunnis and Shi'ites A concluding section discusses martyrdom in today's radical environment There is no other book which considers the topic so systematically and which draws so widely on the literary sources This will be essential reading for students of Islamic history and for those looking for an informed account of this controversial topic

The Shi'i Islamic Martyrdom Narratives of Imam al-Ḥusayn Muhammad-Reza Fakhr-Rohani,2023-06-14 Martyrdom narratives maqātil represent a prominent genre of Islamic particularly Shi'i literature In this genre the heart rending aspects of the martyrdom scenes of religiously prominent people are depicted graphically Although not exclusively limited to the martyrdom accounts of Imam al-Ḥusayn and his companions who were martyred on the

plain of Karbala Iraq a great majority of Islamic martyrdom narratives deal with the Ashura episodes As the first book length treatment of this genre in English this text takes the reader from the dawn of Islam in ancient Arabia exploring the background of the Battle of Karbala and giving a view of the various maqtals and several related studies Although examining Arabic and Persian sources this book presupposes little background knowledge on the part of the reader **Before Sufism** Christopher Melchert,2020-06-08 Christopher Melchert proposes to historicize Islamic renunciant piety zuhd As the conquest period wound down in the early eighth century c e renunciants set out to maintain the contempt of worldly comfort and loyalty to a greater cause that had characterized the community of Muslims in the seventh century Instead of reckless endangerment on the battlefield they cultivated intense fear of the Last Judgement to come They spent nights weeping reciting the Qur an and performing supererogatory ritual prayers They stressed otherworldliness to the extent of minimizing good works in this world Then the decline of tribute from the conquered peoples and conversion to Islam made it increasingly unfeasible for most Muslims to keep up any such regime Professional differentiation also provoked increasing criticism of austerity Finally in the later ninth century a form of Sufism emerged that would accommodate those willing and able to spend most of their time on religious devotions those willing and able to spend their time on other religious pursuits such as law and hadith and those unwilling or unable to do either *Urban Terrorism* N. C. Asthana,Anjali Nirmal,2009 Outrageous myths have been created and perpetrated about terrorism in general and terrorism by Muslims in particular There are two reasons for it One is of course genuine ignorance about things Islamic The other reason is more sinister Myths are created and perpetuated because that keeps everyone in business By spinning yarns about the most horrible things the terrorists are capable of doing the media ensures that they have a never ending supply of sensational material with which to keep the people hooked it also enables the intelligence agencies and security forces to appear more relevant and expand their turf in the process The myths must be busted because they tend to settle deep in the collective subconscious and ultimately come to influence policy decisions The media for example would have you believe that we have not been able to eradicate terrorism only because we do not have enough commandos everywhere The fact is that terrorism would not be finished by killing a few terrorists Bomb blasts continue to take place in spite of the arrests of the masterminds As long as we do not address the root cause there would be many more willing to kill and get killed Victory against terrorism can be achieved only if you have completely understood the fundamental reasons of terrorism the motivation of the terrorists the intrinsic weaknesses of the targets the innate strength of the way of the terrorist and the follies of the approach that you have persisted with so far If a nation has floundered in its war against terrorism it is because it has never had a serious and honest to God analysis of terrorism Hence this book Exhaustive yet attractive informative yet interesting and above all extremely hard hitting it is the ultimate encyclopedia of terrorism **Sharia Dynamics** Timothy P. Daniels,2017-01-12 This multidisciplinary volume explores the role of Islamic law within the dynamic processes of postcolonial transformation nation building and social reform

Here eleven international scholars examine Islamic law in several contemporary sociopolitical contexts focusing specifically on Malaysia Indonesia Pakistan China Tunisia Nigeria the United States and the International Islamic Fiqh Academy IIFA of the Organization of Islamic Cooperation OIC The contributors also address the entanglement of Islamic law and ethics with the history of Muslim religious discourses shifts toward modernity gender relations and efforts to construct exclusive or plural national communities Sharia Dynamics at once enchanting and enlightening is a must read for scholars of contemporary Islam

Constructing Religious Martyrdom John Soboslai, 2024-06-27 Martyrdom is a phenomenon common to many of the world's religious traditions But why In this study John Soboslai offers insights into the practices of self sacrifice within specific sociopolitical contexts Providing a new understanding of martyrdom through the lens of political theology he analyzes discourses and performances in four religious traditions during social and political crises beginning with second century Christianity in Asia Minor where the term martyr first took its meaning He also analyzes Shi'a Islam in the 1980s when suicide bombing first appeared as a strategy in West Asia global Sikhism during World War I where martyrs stood for and against the British Raj and twenty first century Tibetan Buddhism where self immolators used their bodies in opposition to the programs of the People's Republic of China

Presenting a new theory of martyrdom linked to constructions of sovereign authority Soboslai reveals common features of self sacrifice and demonstrates how bodily performances buttress conceptions of authority

Christian Martyrs under Islam Christian C. Sahner, 2018-08-14 A look at the developing conflicts in Christian Muslim relations during late antiquity and the early Islamic era How did the medieval Middle East transform from a majority Christian world to a majority Muslim world and what role did violence play in this process Christian Martyrs under Islam explains how Christians across the early Islamic caliphate slowly converted to the faith of the Arab conquerors and how small groups of individuals rejected this faith through dramatic acts of resistance including apostasy and blasphemy Using previously untapped sources in a range of Middle Eastern languages Christian Sahner introduces an unknown group of martyrs who were executed at the hands of Muslim officials between the seventh and ninth centuries CE Found in places as

diverse as Syria Spain Egypt and Armenia they include an alleged descendant of Muhammad who converted to Christianity high ranking Christian secretaries of the Muslim state who viciously insulted the Prophet and the children of mixed marriages between Muslims and Christians Sahner argues that Christians never experienced systematic persecution under the early caliphs and indeed they remained the largest portion of the population in the greater Middle East for centuries after the Arab conquest Still episodes of ferocious violence contributed to the spread of Islam within Christian societies and memories of this bloodshed played a key role in shaping Christian identity in the new Islamic empire Christian Martyrs under Islam examines how violence against Christians ended the age of porous religious boundaries and laid the foundations for more antagonistic Muslim Christian relations in the centuries to come
