Erich Fromm and Global Public Sociology Neil McLaughlin,2023-01-10 As the rise of global right wing populism and Trumpism creates new interest in psycho social writing and popular sociology this timely book tells the story of the rise fall and contemporary revival of the theories of Erich Fromm a 1930s influential and creative public intellectual **The Limits of Technology and the End of History** Yefim Kats,2024-10-12 This book examines the long standing belief in infinite scientific and technological progress and links it to the Enlightenment ideal of man as a universal being and subject of the universal world history destined to become a master and possessor of nature The author analyzes a broad range of issues in epistemology the philosophy of history and the philosophy of science and technology Marx s philosophy is explored to the extent that his dialectic of labor sheds light on Western technological optimism and the ideal of human universality and offers an elaborate framework for analyzing the intrinsic limits to technological progress The focus is on his early works providing a theoretical and humanistic underbelly for the mature ideas of the Capital Examining the epistemic foundations of the belief in infinite progress the author argues that actual infinity either in the form of unbounded technological scientific expansion or infinite complexity of nature is redundant for the universality of man his scientific pursuit and historical experience The conundrum of universality and power calls for a systematic critique of instrumental reason its practical applicability and value structure **The Concept of the Individual in the Thought of Karl Marx** Zhi Li,2023-04-08 This book reconstructs the concept of the individual in Marx as the key to a fresh interpretation of Marxian philosophy Marx moved from an examination of the contingency and indeterminacy of individual consciousness in his early years to a critique of the atomistic individual and materialised social relations in his later years His thought proposes that real individuals are the basis for an understanding of human society that promotes the emancipation of humankind Marx s philosophy has often been misunderstood as lacking a concept of the individual In China this misunderstanding not only relates to cultural and linguistic particularities the word individual is seldom used in Chinese but also relates to a misleading view of socialism and

communism This book helps remedy this misunderstanding and draws important comparisons and contrasts between Marx's concept of the individual with that of liberalism and between Western and Eastern Marxism **Karl Marx** Allan

Megill, 2001-12-11 Why did Karl Marx want to exclude politics and the market from his vision of a future socialism In Karl Marx The Burden of Reason Allan Megill begins with this question Megill's examination of Marx's formative writings casts new light on Marx's relation to philosophy and reveals a hitherto largely unknown rationalist Marx In demonstrating how Marx's rationalism permeated his attempts to understand politics economics and history generally Megill forces the reader to rethink Marx's entire intellectual project While Megill writes as an intellectual historian and historian of philosophy his highly original redescription of the Marxian enterprise has important implications for how we think about the usability of Marx's work today Karl Marx The Burden of Reason will be of interest to those who wish to reflect on the fate of Marxism during the era of Soviet Communism It will also be of interest to those who wish to discern what is living and what is dead what is adequate and what requires replacement or supplementation in the work of a figure who in spite of everything remains one of the greatest philosophers and social scientists of the modern world *Understanding Ideology* Warren Frederick Morris, 2010 Herein the reader is enabled to recognize public expressions of an ideology thereby avoiding gullibility and the consequences of ignorance Of Karl Mannheim's classic dual conception of ideology a Marxist Freudian orientation is adopted Supporting this is a critical conception of social alienation with aggressivity narcissism and socialization providing the psychological foundation for establishing any ideology Operative in ideology are the same psychically defensive mechanisms Freud found in wishful dreams neurotic repression paranoia and mythology Various forms of fallacious reasoning and propaganda sustain ideology Finally dealt with is the possibility of escaping ideology as well as its difference from science From years past Mr Morris holds the equivalent of a 1963 undergraduate degree in philosophy a 1970 MA degree in philosophy and successfully completed in 1980 a Ph D requirement in philosophical anthropology Currently retired from a federal government career and academically unaffiliated Mr Morris has Published two previous books Escaping Alienation A Philosophy of Alienation and Dealienation 2002 and Emotion and Anxiety A Philosophic Inquiry 2006 Book jacket *African Cultural Values* Raphael Chijoke Njoku, 2013-10-23 Although numerous studies have been made of the Western educated political elite of colonial Nigeria in particular and of Africa in general very few have approached the study from a perspective that analyzes the impacts of indigenous institutions on the lives values and ideas of these individuals This book is about the diachronic impact of indigenous and Western agencies in the upbringing socialization and careers of the colonial Igbo political elite of southeastern Nigeria The thesis argues that the new elite manifests the continuity of traditions and culture and therefore their leadership values and the impact they brought on African society cannot be fully understood without looking closely at their lived experiences in those indigenous institutions where African life coheres The key has been to explore this question at the level of biography set in the context of a carefully reconstructed social history of

the particular local communities surrounding the elite figures It starts from an understanding of their family and village life and moves forward striving to balance the familiar account of these individuals in public life with an account of the ongoing influences from family kinship age grades marriage and gender roles secret societies the church local leaders and others The result is not only a model of a new approach to African elite history but also an argument about how to understand these emergent leaders and their peers as individuals who shared with their fellow Africans a dynamic and complex set of values that evolved over the six decades of colonialism
