Political Pathologies from The Sopranos to Succession Robert Samuels, 2023-03-10 Political Pathologies from The Sopranos to Succession argues that highly praised prestige TV shows reveal the underlying fantasies and contradictions of uppermiddle class political centrists Through a psychoanalytic interpretation of The Sopranos Breaking Bad The Wire House of Cards Dexter Game of Thrones and Succession Robert Samuels uncovers how moderate liberals have helped to produce and maintain the libertarian Right Samuels analysis explores the difference between contemporary centrists and the foundations of liberal democracy exposing the myth of the liberal media and considers the consequences of these celebrated series including the undermining of trust in modern liberal democratic institutions Political Pathologies from The Sopranos to Succession contributes to a greater understanding of the ways media and political ideology can circulate on a global level through the psychopathology of class consciousness This book will be of great interest to academics and scholars considering

intersections of psychoanalytic studies television studies and politics *The Bible in Crime Fiction and Drama* Caroline Blyth, Alison Jack, 2019-01-24 The Bible has always enjoyed notoriety within the genres of crime fiction and drama numerous authors have explicitly drawn on biblical traditions as thematic foci to explore social anxieties about violence religion and the search for justice and truth The Bible in Crime Fiction and Drama brings together a multi disciplinary scholarship from the fields of biblical interpretation literary criticism criminology and studies in film and television to discuss international texts and media spanning the beginning of the 20th century to the present day The volume concludes with an afterword by crime writer and academic Liam McIvanney These essays explore both explicit and implicit engagements between biblical texts and crime narratives analysing the multiple layers of meaning that such engagements can produce cross referencing Sherlock Holmes with the murder mystery in the Book of Tobit observing biblical violence through the eyes of Christian fundamentalists in Henning Mankell s Before the Frost catching the thread of homily in the serial murders of Se7en or analysing biblical sexual violence in light of television crime procedurals The contributors also raise intriguing questions about the significance of the Bible as a religious and cultural text its association with the culturally pervasive themes of violence im morality and redemption and its relevance as a symbol of the often fraught location that religion occupies within contemporary secular culture **Fictional television and American politics** Jack Holland, 2019-07-19 This book explores the relationship between fictional television and American world politics in the period from 9 11 through to the presidency of Donald J Trump This period comprises a second golden age for fictional TV The book therefore explores some of the best TV of all time across two decades of heightened political controversy **Telecinematic Stylistics** Christian Hoffmann, Monika Kirner-Ludwig, 2020-05-14 Over the last two decades the study of discourse in film and television has become one of the most promising research avenues in stylistics and pragmatics due to the dazzling variety of source material and the huge pragmatic range within it Meanwhile with the advent of streaming and the box set film and television themselves are becoming separated by an increasingly blurred line This volume closes a long standing gap in stylistics research bringing together a book level pragmastylistic showcase It presents current developments from the field from two complementary perspectives looking stylistically at the discourse in film and the discourse of and around film This latter phrase comes to mean the approaches which try to account for the pragmatic effects induced by cinematography This might be the camera work or the lighting or the mise en sc ne or montage The volume takes a multimodal approach looking at word movement and gesture in keeping with modern stylistics The volume shows how pragmatic themes and methods are adapted and applied to films including speech acts im politeness implicature and context In this way it provides systematic insights into how meanings are displayed enhanced suppressed and negotiated in both film and televisual arts Considering Class: Theory, Culture and the Media in the 21st Century , 2017-11-06 Considering Class Theory Culture and Media in the 21st Century offers the reader international and interdisciplinary perspectives on the importance of class analysis in the 21st

century Political economists sociologists educationalists ethnographers cultural and media analysts combine to provide a multi dimensional account of current class dynamics The crisis consists precisely in the gap between the objective reality and efficacy of class forces shaping international politics and the relative paucity of class consciousness at a popular level and appreciation of class as an explanatory optic at a theoretical level This important book shows why the process of reconstructing class consciousness must also take place on the ground of cultural and subjective formation where everyday values habits and media practices are in play Contributors are Anita Biressi Joseph Choonara Maurizio Donato Danny Dorling Mark Gibson Craig Haslop Dave Hill Peter Jakobsson Marina Kabat Holly Lewis Catherine Lumby Lisa Mckenzie Tony Moore Adrian Murray Deirdre O Neill Jonathan Pratschke Michael Seltzer Eduardo Sartelli Fredrik Stiernstedt Roberto Taddeo Mike Wayne Milly Williamson Ferruh Y lmaz

Storyworld Possible Selves María-Ángeles Martínez, 2018-03-05 This volume presents a multidisciplinary approach to narrative engagement within the paradigms of cognitive linguistics cognitive narratology and social psychology In their basic form storyworld possible selves or SPSs are blends resulting from the conceptual integration of an intra and an extra diegetic perspectivizer In written narratives SPS blends function as hybrid referents for a variety of inclusive and ambiguous linguistic expressions which are here explored from the standpoint of interactional cognitive linguistics as instances of SPS objectification and subjectification The model also draws on character construction and on the social psychology notions of self schemas and possible selves This allows an exploration of emotional responses to narratives not just in terms of empathy or sympathy towards fictional entities but also

in terms of narrative ethics and of culturally determined and simultaneously idiosyncratic feelings of personal relevance and self transformation
