**Masks and Mirrors** Bernard Rosen, 2001-07-30 As America experiences the growing pains associated with the rapid social changes in the economy technology and culture various groups must develop coping mechanisms to help them deal with the anxiety that is brought on by such changes Generation Xers on the cutting edge of these changes are no exception More so than any other group elite Xers those who are succeeding in the new economy have adopted a unique personality style chameleonism as a defense mechanism People with a chameleon personality pretend to be what others want them to be in an effort to obtain for themselves the kind of security Xers feel previous generations have enjoyed but which may not be available to their own generation Rosen further argues that this personality component of pretending to be something one is not becomes a permanent part of the personality when it is practiced and used frequently enough This riveting examination of the Xer generation sheds new light on the survival mechanisms employed by those who feel threatened by social changes even as they participate in and benefit from them The author begins by providing a careful explanation of the chameleon personality before delving into the special problems and obstacles both real and perceived that torment elite Xers and their ways of dealing with these issues He discusses various sources of anxiety and how the chameleon personality comes into play with regard to conflict between generations conflict between the genders and conflict brought on by immigration and foreign competition While Rosen's approach is primarily socio psychological he also provides historical background on issues of social change and other attempts at dealing with it in the past He presents a reasoned examination of the chameleon personality as it is manifested in America's Generation X in an effort to shed light on this unique segment of our population

*Gen X at Middle Age in Popular Culture* Pamela W. Hollander, 2020-12-10 Born roughly between 1964 and 1980 Generation X has received much less critical attention than the two generations that precede and follow it the Baby Boomers and Millennials This essay collection examines representations of Generation X in contemporary popular culture including in television movies music and internet sources Drawing on generational theory cultural studies theory race theory and feminist theory the essays in this volume consider the past identities of Generation X relationships with members of younger generations modern appropriation of Generation X aesthetics interactions of Generation X members with family and the existential values of Generation X

The Generation X Librarian Martin K. Wallace, Rebecca Tolley-Stokes, Erik Sean Estep, 2014-01-10 Generation X includes individuals born roughly between 1961 and 1981 This generation has faced major advances in technology environmental degradation and widening economic injustice all of which affect libraries and librarians This collection of critical essays highlights the special challenges that face Generation X librarians Topics covered include management and leadership rapidly changing technology social attitudes and stereotypes within popular culture and how Generation X librarians have responded to or developed in response to those themes This work fills many of the gaps present in the professional literature on librarianship and our younger generations

Selfhood, Identity and Personality

Styles Giampiero Arciero, Guido Bondolfi, 2011-02-07 *Selfhood Identity and Personality Styles* is an interdisciplinary study that describes a new perspective on psychopathology based on the search for the source of personal meaning and identity. The opening section develops a first person approach to selfhood and personal identity discussing relevant topics in personality and social psychology, developmental psychology, psychology of emotions and neuroscience. The second part presents five different personality styles distinguished on the basis of their emotional inclinations: Eating Disorder prone, Obsessive Compulsive prone, personalities prone to Hypochondria, Hysteria, Phobia prone and Depression prone. The classification based on affectivity makes it possible to illustrate the continuity between the study of personality and that of psychopathology. One distinctive feature of this extraordinary book is a discussion of recently published evidence that functional magnetic resonance imaging can show how brain activity may be related to personality styles. With a new Foreword by Shaun Gallagher, Professor of Philosophy, University of Central Florida. Praise for *Selfhood Identity and Personality Styles*: This is a scholarly book which will provide the reader with plenty to chew on. This book will make you think, will illuminate how people function and will help you understand how self-disordered experience such as the feeling that one disappears or doesn't exist when another leaves occurs. The authors tackle with great sophistication the big questions of how sameness, changing experience and temporality are woven together by language and narrative. Refusing to be reduced to the simplicity of an objectivist account of functioning, they offer profound phenomenological views on identity and emotion that show a deep appreciation of the complexity of what it is to be a person. Their analysis of functioning leads to the specification of inward and outward dispositional dimensions and using clinical and literary examples they provide descriptions of different styles of personality along this continuum ranging from eating disorder prone personalities focused on the other at one end of the continuum and depression prone personalities focused excessively inwardly at the other end. Leslie Greenberg, Professor of Psychology, York University, Canada. Arciero and Bondolfi have written a timely, thought-provoking and challenging book providing the reader with a refreshingly new account of Self-identity and its disorders. A cogent and novel contribution to psychiatric thought that wonderfully integrates philosophy, psychopathology and contemporary neuroscience. This book will push psychiatry in new directions. A must read. Vittorio Gallese, Professor of Human Physiology, University of Parma, Italy. *Selfhood Identity and Personality Styles* is a highly ambitious work of theoretical synthesis. Neuroscience, phenomenology and social constructionism are joined together with the study of both literature and psychopathology. Arciero and Bondolfi offer sophisticated and intriguing discussions not only of mirror neurons and developmental psychology but also of ideas from Aristotle, Kant and Heidegger, of characters from Dostoevsky, Kleist and Pessoa and of patients from clinical practice. A ground-breaking first attempt to show the relevance of the interdisciplinary study of basic self-experience for our understanding of character styles and personality disorders. Louis A. Sass, Professor of Clinical Psychology, Rutgers University. Winner of third prize in the Specialist Readership section of the UK Medical Journalists Association Open Book Awards 2010.

*Japan's Changing Generations* Gordon Mathews, Bruce White, 2012-10-02 This book argues that the generation gap in Japan is something more than young people resisting the adult social order before entering and conforming to that order. Rather, it signifies something more fundamental: the emergence of a new Japan which may be quite different from the Japan of postwar decades. It argues that while young people in Japan in their teens, twenties, and early thirties are not engaged in overt social or political resistance, they are turning against the existing Japanese social order whose legitimacy has been undermined by the past decade of economic downturn. The book shows how young people in Japan are thinking about their bodies and identities, their social relationships, and their employment and parenting in new and generationally contextual ways that may help to create a future Japan quite different from Japan of the recent past.

After the Baby Boomers Robert Wuthnow, 2010-02-22 Much has been written about the profound impact the post World War II baby boomers had on American religion. But the lifestyles and beliefs of the generation that has followed and the influence these younger Americans in their twenties and thirties are having on the face of religion are not so well understood. It is this next wave of post boomers that Robert Wuthnow examines in this illuminating book. What are their churchgoing habits and spiritual interests and needs? How does their faith affect their families, their communities, and their politics? Interpreting new evidence from scores of in-depth interviews and surveys, Wuthnow reveals a generation of younger adults who, unlike the baby boomers that preceded them, are taking their time establishing themselves in careers, getting married, starting families of their own, and settling down, resulting in an estimated six million fewer regular churchgoers. He shows how the recent growth in evangelicalism is tapering off and traces how biblical literalism, while still popular, is becoming less dogmatic and more preoccupied with practical guidance. At the same time, Wuthnow explains how conflicts between religious liberals and conservatives continue, including among new immigrant groups such as Hispanics and Asians, and how, in the absence of institutional support, many post boomers have taken a more individualistic, improvised approach to spirituality. Wuthnow's fascinating analysis also explores the impacts of the Internet and so-called virtual churches and the appeal of megachurches.

*After the Baby Boomers* offers us a tantalizing look at the future of American religion for decades to come.

*Third Culture Kids* Ettie Zilber, 2009 The concept of Third Culture Kids (TCKs)—children who follow their globetrotting parents around the world—is not a new one and has been widely studied. However, there is one specific group of TCKs who have until now been largely ignored: EdKids, the children of international school educators. In this new work, Dr. Ettie Zilber brings together all the material she has collected over many years of research on this unique group and allows them to voice their own opinions, feelings, and stories for the first time. Spanning a long career in education, Dr. Ettie Zilber has served at international schools and other educational centers in the US, Israel, Singapore, Spain, Guatemala,
