Comics Beyond Text and Image Benjamin Fraser, 2025-08-08 Comics Beyond Text and Image conceptualizes comics as bodies exploring the substance and the many movements and expressions of comics first and foremost in terms of corporeality The book centers on the metaphor of the comics body as a way of opening up our understandings of what comics do It begins from the position that narrative in comics is corporeal expressed in and through the visual bodies into which the page can be divided analytically and from the interaction of the human body with the comics body Drawing on the philosophy of Baruch Spinoza the author argues for the primary role of visual narration over textual narration develops a theory of the comics text as a cohesive and variegated cartography and shows how thought is expressed in the extensive space of the comics page This theory is then applied in snapshots of individual comics works that each in their own way continue the philosophical discussions of embodiment This book moves beyond traditional modes of narration or narrative and will appeal to students and scholars of comics studies as well as to those thinking about visual narrative more broadly and to scholars of Spinoza and Deleuze

Summer Blonde Adrian Tomine, 2022-06-27 Adrian Tomine's cult comix series Optic Nerve is finally collected into one sharp looking hardcover graphic novel Described as the Raymond Carver of comix Tomine constructs tales of emotional disconnection with an ear for painfully real dialogue Combined with his deft black and white depictions of urbane lifestyles Tomine's fans have often accused him of eavesdropping in on their most intimate moments and with forensic skill laying their lives bare The conflicts between emotional gratification narcissistic

neediness and moral discernment mark the title story Summer Blonde in which a socially crippled man nurses an obsessive crush on a young woman He watches close up paralyzed by his guilt as her beauty catches the eye of his neighbor a hip selfish young man with a short attention span One of Optic Nerve s most popular stories Hawaiian Getaway features Hilary telephone service rep who is having the worst week of her life She lost her job her apartment and her grandmother Close to the edge she is losing her grip Reaching out to random strangers on the phone Hilary is looking for someone to help her In Alter Ego a successful young author has writer s block He can t or won t decide between another ghostwriting gig and finishing his second real novel He stalls on committing to his novel and his girlfriend when a chance postcard leads him to flirt with fantasies of changing the past Finally Bomb Scare documents the early unease of his generation by setting this coming of age story during the tense months of the Gulf War the event that ushered in the 1990s
