Tynan, 2020-07-29 This book explains the Saudi decision to launch a direct military intervention in Yemen in 2015 by comparing it with the monarchy's response to Egyptian intervention into Yemen in 1962 It does so through the lens of domestic politics by tracing the monarchy's response to the opposition in both time periods and how this was informed by the different regional contexts of the 1960s and the 2011 Arab Spring The study argues that Saudi Arabia enhanced its own institutions including a pan Islamic ideological justification to rule in response to aggression from Egypt and its revolutionary pan Arab ideology This contributed to a relatively cautious Saudi foreign policy in response to regional threats from Arab nationalism along with a strategy of co-optation within the kingdom In contrast the non ideological threat embodied in the Arab Spring posed a more existential danger to Saudi legitimacy The new crown prince manipulated the regime's sense of anxiety from this to consolidate power through further scapegoating of the Shi'a minority exacerbated tensions with foreign rivals and most blatantly the 2015 intervention in Yemen Comparing Saudi foreign policy changes from the Arab nationalist period to the post Arab Spring period this volume is a valuable resource for scholars and students interested in political science history international relations and Middle East politics
