The Third Condition Richard Gilbert, 2005 In the fall of 1999 Dr Richard Gilbert a professor of Psychology in Los Angeles is busy preparing an international conference entitled The Post Freudian Millennium By organizing and leading this conference Richard plans to destroy the last vestiges of Freudian reasoning in contemporary society and in so doing revive his flagging career Everything is going according to plan until Richard opens his door late on Halloween night and finds himself face to face with the ghost of Sigmund Freud What follows is a two month journey to the start of the new millennium in which Richard and Freud debate psychology psychoanalyze each other and eventually confront a secret that changes both of them forever Told as a fictional memoir with intelligence and humor The Third Condition A Memoir of Freud's Return is an imaginative thought provoking and highly original work

The Foetal Condition Luc Boltanski, 2013-10-29 Abortion is a contentious issue in social life but it has rarely been subjected to careful scrutiny in the social sciences While the legalization of abortion has brought it into the public domain it still remains a sensitive topic in many cultures often hidden from view and rarely spoken about consigned to a shadowy existence Drawing on reports gathered from hospital settings and in depth interviews with women who have had abortions Luc Boltanski sets out to explain the ambiguous status of this social practice Abortion he argues has to remain in the shadows for it reveals a contradiction at the heart of the social contract the principle of the uniqueness of beings conflicts with the postulate of their replaceable nature a postulate without which no society would achieve demographic renewal This leads Boltanski to explore the way human beings are engendered and to analyze the symbolic constraints that preside over their entry into society What makes a human being is not the foetus as such ensconced within the body but rather the process by which it is taken up symbolically in speech that is its symbolic adoption But this symbolic adoption presupposes the possibility of discriminating among embryos that are indistinguishable For society and sometimes for individuals the arbitrary character of this discrimination is hard to tolerate The contradiction is made bearable Boltanski shows by a grammatical categorization the project foetus adopted by its parents who use speech to welcome the new being and give it a name is juxtaposed to the tumoral foetus an

a lively account of the city's culture, roadside attractions and history from the days of the Spanish missions to the pre Second World War boom. The guide is revealing both in the opinions it embodies and in the juicy details it records: tidbits such as the bloodiest and most incompetently fought battle of the Mexican American War, Emma Goldman's abruptly terminated speech to local Wobblies in 1912 and even a delightfully anachronistic way to beat a San Diego speeding ticket. Brimming with tours that can prove challenging to retrace, this book reminds us of the changes wrought by seven decades of intervening war, peace and biotechnology. Unlatching a remarkable trapdoor into the past, this compact and charming document of the Depression era invites repeated browsing and is generously illustrated with striking black and white photographs that bring the period to life.
