Martin Luther's Ninety-Five Theses Timothy J. Wengert, 2015-11-06 By almost any reckoning the Ninety Five Theses ranks as the most important text of the Reformation if not in substance at least in impact As the anniversary of its posting on the church door in Wittenberg approaches what better way to remember and recognize the occasion than to make this important text more easily understood by twenty first century readers Timothy J Wengert one of the best known interpreters of Luther and Lutheranism active today sets his newly translated Ninety Five Theses in its historical context with a detailed introduction and illuminating study notes To help the reader understand the context and the import of the Ninety Five Theses more deeply Wengert provides two more related and essential documents Luthers Letter to Archbishop Albrecht of Mainz to which he appended a copy of the Theses and Luthers 1518 Sermon on Indulgences and Grace written to inform the German speaking public of his view of indulgences The book is simply constructed with introductions and notes for each of the writings as well as a study guide with questions for individual or group reflection and conversation

and the life changing Gospel Martin Luther's Theology Bernhard Lohse,1999-01-01 This definitive analysis of the theology of Martin Luther surveys its development during the crises of Luther's life then offers a systematic survey by topics. Containing a wealth of quotations from less known writings by Luther and written in a way that will interest both scholar and novice Lohse's magisterial volume is the first to evaluate Luther's theology in both ways. Lohse's historical analysis takes up Luther's early exegetical works and then his debates with traditions important to him in the context of the various controversies leading up to his dispute with the Antinomians. The systematic treatment shows how the meaning of ancient Christian doctrines took their place within the central teaching of justification by faith The Reformation Steven M. Studebaker, Gordon L. Heath, 2021-04-16 Martin Luther's nailing of the Ninety Five Theses on the church door at Wittenberg was a pivotal moment in the birth of what would become known as the Reformation. More than five hundred years later historians and theologians continue to discuss the impact of these events and their ongoing relevance for the church today. The collection of essays contained in this volume not only engages the history and theology of this sixteenth century movement but also focuses on how the message and praxis of the Protestant reformers can be translated into a post Christendom West. Studies on the History of the Reformation in Hungary and Transylvania Katalin Péter, 2018-10-01 Katalin Peter offers is a vigorous and stimulating reassessment of the history of the Protestant Reformation in Hungary The Reformation has traditionally been explained in terms of theology the corruption of the church and the roles of princes Katalin Peter shifts the context of study of the Reformation in Hungary to a bottom up examination of the social dynamics of religious change producing a lively narrative of the experiences and reactions of contemporary actors including rural town and village communities local priests and landlords to evangelical ideas Through a close reading of church visitation records common men and women emerge on the pages of the book both as the agents of religious change and as the defenders of the old faith while local priests as Peter had to adapt to lay demands A comparative analysis of the position and actions of landlords as church patrons in all three parts of contemporary Hungary the kingdom under Habsburg rule the Ottoman vassal Principality of Transylvania and Ottoman Hungary leads to the conclusion that patrons did not interfere in local religious change since this change did not interfere with the distribution of power In addition to this radically new narrative of the social dynamics of the early Reformation in Hungary Peter engages in the long standing debates concerning the roles of the Protestant Reformation in intellectual culture and she illuminates the scopes and limits of the confessional cultures that emerged in its wake The book brings together a coherent body of work that began to be published in the 1990s and until now has only been available in Hungarian

The Church Held Captive in Babylon Denis Janz, 2019-02-13 In August of 1520 Martin Luther published the first of three incendiary works Address to the German Nobility in which he urged secular authorities to take a strong hand in reforming the Roman church In October he published The Church Held Captive and by December the deepest theological rationale appeared in The Freedom of a Christian With these three books the relatively unknown Friar Martin exploded onto the Western European literary and religious scene These three works have been universally acknowledged as classics of the Reformation and of the Western religious tradition in general Though Reformation scholars have been reluctant to single out one as the most important of the three Denis Janz proposes a bold case for The Church Held Captive In the first entirely new translation in more than a century Janz presents Luther's text as it hasn't been read in English before Previous translations stifle the original text by dulling the sharpest edges of its argumentation and tame Luther by substituting euphemisms for his vulgarities In Janz's dual language edition we see the provocative offensive and extreme restored In his wide ranging introduction Janz offers much needed context to clarify the role of The Church Held Captive in Luther's life and the life of the Reformation This edition is the most reader friendly scholarly version of Luther's classic in the English language *Beyond Indulgences* Anna Marie Johnson, 2017-11-01 Between Luther's Ninety Five Theses in 1517 and his excommunication from the church in 1520 he issued twenty five sermons and treatises on Christian piety most of them in German These pastoral writings extended his criticisms of the church beyond indulgences to the practices of confession prayer clerical celibacy the sacraments suffering and death These were the issues that mattered most to Luther because they affected the faith of believers and the health of society Luther's conflict with Rome forced him to address the issue of papal authority but on his own time he focused on encouraging lay Christians to embrace a simpler self sacrificing faith In these pastoral writings he criticized theologians and church officials for leading people astray with a reliance on religious works and he began to lay the foundation for a reformed Christian piety *Sola* Volker Leppin, 2024-05-14 Leppin explores the four solas of Reformation theology Christ grace faith and scripture as both anchored in the culture of late medieval devotion and representing new firmly demarcated formulae Luther's four pillars became clarion calls in the fight against the medieval church Leppin helps readers understand however that in the journey toward these new theological understandings continuity and discontinuity were inextricably linked Luther built upon the foundations of his late medieval world even as he articulated the sola Christus sola gratia sola fide and sola scriptura foundations that would change Christianity forever Along the way these principles functioned as integrative continuous ideas and exclusive demarcating ones at the same time Luther's world was a new and fundamentally different theological realm but Sola Christ Grace Faith and Scripture Alone in Martin Luther's Theology also shows us the ways Luther and his thought were products of the personalities and intellectual origins from which they came The Soul of Doubt Dominic Erdozain, 2015-08-31 It is widely assumed that science is the enemy of religious faith The idea is so pervasive that entire industries of religious apologetics converge around the challenge of Darwin evolution and the

secular worldview This book challenges such assumptions by proposing a different cause of unbelief in the West the Christian conscience Tracing a history of doubt and unbelief from the Reformation to the age of Darwin and Karl Marx Dominic Erdozain argues that the most powerful solvents of religious orthodoxy have been concepts of moral equity and personal freedom generated by Christianity itself Revealing links between the radical Reformation and early modern philosophers such as Baruch Spinoza and Pierre Bayle Erdozain demonstrates that the dynamism of the Enlightenment including the very concept of natural reason espoused by philosophers such as Voltaire was rooted in Christian ethics and spirituality The final chapters explore similar themes in the era of Darwin and Marx showing how moral revolt preceded and transcended the challenges of evolution and scientific materialism in the unseating of religious belief The picture that emerges is not of a secular challenge to religious faith but a series of theological insurrections against divisive accounts of Christian orthodoxy
