## **Marty McGuire Study Guide:**

Marty McGuire Has Too Many Pets! Kate Messner, Brian Floca, 2014-01-28 An irrepressible third grader's charity pet sitting business gets out of hand in this witty chapter book. Marty McGuire really has her hands full this time with a lazy boa, a hyper hamster, and a potty-mouthed parrot. Is her pet sitting business about to go OUT of business? After visiting a sanctuary for retired lab chimpanzees, Marty wants to follow in the footsteps of her idol Jane Goodall and help with their care. But adopting a chimp is expensive, so Marty and her third grade pals hatch a plan to raise money by holding a talent show at school and opening a pet sitting business in Marty's basement. It turns out that each pet has a personality of its own, and wrangling them is much harder than Marty expected. How will Marty keep her latest great idea from going to the dogs? Praise for *Marty McGuire Has Too Many Pets*: Messner makes the most of Marty's story with a nicely differentiated cast of empathetic characters and plenty of dramatic range. The line and gray wash illustrations by Caldecott Medal winning artist Floca capture moments of anxiety, despair, and happiness with equal grace. **Booklist**

**The Oxford Handbook of Medieval Latin Literature** Ralph Hexter, David Townsend, 2012-01-20 The twenty-eight essays in this handbook represent the best current thinking in the study of Latin language and literature in the Middle Ages. Contributing authors, both senior scholars and gifted younger thinkers, among them, not only illuminate the field as traditionally defined but also offer fresh insights into broader questions of literary history, cultural interaction, world literature, and language in history and society. Their studies vividly illustrate the field's complexities on a wide range of topics, including canonicity, literary styles and genres, and the materiality of manuscript culture. At the same time, they suggest future possibilities for the necessarily provisional and open-ended work essential to the pursuit of medieval Latin studies. The overall approach of *The Oxford Handbook of Medieval Latin Literature* makes this volume an essential resource for students of the ancient world interested in the prolonged afterlife of the classical period's cultural complexes, for medieval historians, for scholars of other medieval literary traditions, and for all those interested in delving more deeply into the fascinating, more than millennium-long passage between the ancient Mediterranean world and what we consider modernity. *Medieval Latin* Frank Anthony Carl Mantello, A. G. Rigg, 1996 Organized with the assistance of an international advisory committee of medievalists from several disciplines, *Medieval Latin: An Introduction and Bibliographical Guide* is a new standard guide to the Latin language and literature of the period from c. A.D. 200 to 1500. It promises to be indispensable as a handbook in university courses in Medieval Latin and as a point of departure for the study of Latin texts and documents in any of the fields of medieval studies. Comprehensive in scope, the guide provides introductions to and bibliographic orientations in all the main areas of Medieval Latin language, literature, and scholarship. Part One consists of an introduction and a sizable listing of general print and electronic reference and research tools. Part Two focuses on issues of language, with introductions to such topics as Biblical and Christian Latin and Medieval Latin pronunciation, orthography, morphology, and syntax, word formation, and lexicography, metrics, prose styles, and so on.

There are chapters on the Latin used in administration law music commerce the liturgy theology and philosophy science and technology and daily life Part Three offers a systematic overview of Medieval Latin literature with introductions to a wide range of genres and to translations from and into Latin Each chapter concludes with a bibliography of fundamental works texts lexica studies and research aids This guide satisfies a long standing need for a reference tool in English that focuses on medieval latinity in all its specialized aspects It will be welcomed by students teachers professional latinists medievalists humanists and general readers interested in the role of Latin as the learned lingua franca of western Europe It may also prove valuable to reference librarians assembling collections concerned with Latin authors and texts of the postclassical period

ABOUT THE EDITORS F A C Mantello is professor of Medieval Latin at The Catholic University of America A G Rigg is professor of English and medieval studies and chairman of the Medieval Latin Committee at the University of Toronto s Centre for Medieval Studies

Benefit-cost Analysis A. Allan Schmid,2019-03-01

Choice is the name of the game Government sets the size of the public budget and decides which public projects it will invest in and which transfers and regulations it will implement To do this systematically the government must have a procedure that displays the consequences of the alternatives This book is an exposition of benefit cost analysis BCA an analytic framework for organizing thoughts listing the pros and cons of alternatives and determining values for all relevant factors so that the alternatives can be ranked A major question illuminated by this text is whether the results of such an analysis can instruct government in the sense of telling it what it must do to avoid being labelled stupid corrupt irrational and or inefficient How and when we will ask can the benefit cost analyst label a particular governmental investment policy or regulation as political in the pejorative sense as opposed to economic in the laudatory sense of being economically justified This book will argue that BCA is much like a consumer information system Consumer information neither tells consumers what to do nor tells them what they should want However it does tell them which products will perform in selected ways and at what costs And this information together with the independently arrived at wants helps the consumer make intelligent choices
