Masonic and Esoteric Heritage Andréa Kroon,OVN (Organization). International Conference,2005 **Western Esotericism in Scandinavia** ,2016-06-21 This is the first encyclopaedic work on Western esotericism in Scandinavia Structured along the lines of the Dictionary of Gnosis and Western Esotericism 2005 it contains over 80 articles written by 47 specialists It consists of critical overviews of all the major esoteric currents in Denmark Finland Norway and Sweden ranging from Alchemy Anthroposophy and Astrology to Theosophy Traditionalism and UFO Movements This ground breaking work is of relevance not only for scholars and students of Western esotericism but for all with an interest in alternative religious traditions and Scandinavian intellectual history **A Course of Severe and Arduous Trials** Lynn Brunet,2009 The artist Francis Bacon 1909 1992 and the writer Samuel Beckett 1906 1989 both convey in their work a sense of foreboding and confinement in bleak ritualistic spaces This book identifies many similarities between the spaces and activities they evoke and the initiatory practices of fraternal orders and secret societies that were an integral part of the social landscape of the Ireland experienced by both men during childhood Many of these Irish societies modelled their ritual structures and symbolism on the Masonic Order Freemasons use the term spurious Freemasonry to designate those rituals not sanctioned by the Grand Lodge The Masonic author Albert Mackey argues that the spurious forms were those derived from the various cult practices of the classical world and describes these initiatory practices as a course of severe and arduous trials This reading of Bacon s and Beckett s work draws on theories of trauma to suggest that there may be a disturbing link between Bacon s stark imagery Beckett s obscure performances and the unofficial use of Masonic rites *Secrets and Practices of the Freemasons* Jean-Louis de Biasi,2025-08-05 Uncover the fascinating truth behind Freemasonry and incorporate symbolic rituals into your life with this remarkably detailed and comprehensive insider s guide Jean Louis de Biasi a 32nd Degree Freemason who s been involved in the order for over twenty years offers a candid look at the essential aspects of

Freemasonry Basing his work on original texts and archaeological findings de Biasi details the Masonic tradition's history the degree based system of the Scottish Rite and their ethical teachings and philosophies He provides evidence of Freemasonry's origination in the Ancient Western Mysteries and its Hermetic and Qabalistic underpinnings and then traces how the Founding Fathers used this knowledge to embed sacred symbolism into the U S Capitol and throughout Washington DC From the power charged grids within architecture to Albert Pike's highly influential teachings from the Rose Cross mysteries to the Masonic themes in Dan Brown's popular books *Secrets and Practices of the Freemasons* shines a revelatory light on this captivating subject Also featured genuine Masonic meditations and individual rituals with easy to follow instructions plus interviews with scientists who lend their perspectives on Freemasonry as it is viewed and practiced today *Gardens of Madeira—Gardens of the World* Beata Elżbieta Cieszyńska, José Eduardo Franco, Ana Cristina da Costa Gomes, 2020-05-15

The volume *Gardens of Madeira Gardens of the World Contemporary Approaches* displays present tendencies in calling upon the idea of gardens being a wide range approach to their literary sociological and cultural representations The book's four parts Madeira A Garden in the Sea Gardens as Temporal and Spatial Category Cultural and Literary Approaches Gardens as an Expression Socio cultural Perspectives and Re Creating the Archetypal Garden Discourses and Practices refer to vast geographical and cultural areas starting with the very complex sample of the overseas yet European Island of Madeira and then joining the exemplification material from historical and contemporary European communities with some luso centric accents including examples from the less known Slavonic and Eastern European countries Those European issues are confronted with various non European societies such as from Africa Asia and both Americas Gardens evoke and express in many ways the present human condition and as such a process goes on this book provides proposals for patterns to connect them to the modern and post modern rules of self defining reading the Other interpreting world national cultural literatures as well as to the various attempts to introduce the idea of gardens into the basic spatial and temporal aspects of contemporary communities It also demonstrates the theoretical and practical attempts to project our gardens dependence on to one of the essentials for contemporary societies which are multicultural urbanised technologically equipped and dependent but which still are keen on reading and constructing paradises as environmental and cultural spaces for both asylum and encounter The huge advantage of the book is showing to scholars and the wider public how discourses from the past meet with the quests of both the Humanities and the Sciences for gardening inspirations not only for the sake of the today's societies but also when projecting the future of the Earth *Archangels & Archaeology* Geoffrey A. C. Ginn, 2012
