Each unit begins with a Dissection Overview, a guide to the procedures to be accomplished during the session. This is followed by Dissection Instructions with a logical sequence and numbered steps for the dissection. Each dissection concludes with a Dissection Review that presents a numbered list of tasks illustrating the important features of the dissection and encouraging the synthesis of information. In the last edition, the material was streamlined to focus on more accurate, specific, and clear steps based on market conditions and feedback. This edition continues to focus on the trend of reduced lab hours yet maintains the quality and reliability of Grant's original manual.
