The Scent of Empires Karl Schlögel, 2021-04-27 Can a drop of perfume tell the story of the twentieth century? Can a smell bear the traces of history? What can we learn about the history of the twentieth century by examining the fate of perfumes? In this remarkable book Karl Schlögel unravels the interconnected histories of two of the world's most celebrated perfumes. In tsarist Russia two French perfumers Ernest Beaux and Auguste Michel developed related fragrances honouring Catherine the Great for the 300th anniversary of the Romanov dynasty. During the Russian Revolution and Civil War Beaux fled Russia and took the formula for his perfume with him to France where he sought to adapt it to his new French circumstances. He presented Coco Chanel with a series of ten fragrance samples in his laboratory and after smelling each she chose number five the scent that would later go by the name Chanel No 5. Meanwhile as the perfume industry was being revived in Soviet Russia Auguste Michel used his original fragrance to create Red Moscow for the tenth anniversary of the Revolution. Piecing together the intertwined histories of these two famous perfumes which shared a common origin Schlögel tells a surprising story of power, intrigue and betrayal that offers an altogether unique perspective on the turbulent events and high politics of the twentieth century. This brilliant account of perfume and politics in twentieth century Europe will be of interest to a wide general readership.

Elixir Theresa Levitt, 2023-04-25 Drawing on alchemical theory douard Laugier and Auguste Laurent set out to find the vital essence of life through the craft of perfumes. While drawing the ire of enlightened Bohemian Paris they discovered fundamental differences in the structures of naturally occurring and synthetic molecules inaugurating a persistent scientific mystery.
