Halliday,2016-09-09 Excerpt from Greek Divination A Study of Its Methods and Principles I may perhaps venture to add that

with very few subsequent additions the material was collected during my fourth year as a classical scholar of New College

Oxford and the first year of my tenure of the Craven Fellowship which was spent at Berlin In these days when much is talked

of Reform and Research at Oxford a specimen of what has been done by an ordinary scholar under existing conditions may be

of some interest And the objects of the reformers zeal are sometimes driven to reflect on themselves and on that rather highly

coloured simulacrum which represents them on the prospectus of Research and Reform My experience such as it has been

has taught me but one fixed conviction and that a negative one Research and specialised work should on no account be a

feature of pre graduate study Personally I have not merely felt that the three years spent in attaining my degree were from

the point of View of my particular investigations of absolutely vital assistance but I have even on occasion regretted that the

full four years About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at

nature of the psyche and its development Love and the Soul emphasizes how psychological theory determines the direction of interpretation much more than does the literary context of the myth itself It also examines the strengths and weaknesses of these psychological interpretations five Freudian and six Jungian of the Eros and Psyche myth in order to lay the groundwork for an interpretation which 1 avoids the rigidity of both Freudian and Jungian dogma and 2 restores the myth to its rightful literary and religious context something which has been ignored by most psychological interpretations
