Historical Theology An Introduction To Christian Doctrine:

Historical Theology Gregg Allison, 2011-04-19 Historical Theology presents the key pillars of the contemporary church and the development of those doctrines as they evolved from the history of Christian thought. Most historical theology texts follow Christian beliefs in a strict chronological manner with the classic theological loci scattered throughout various time periods, movements, and controversies, making for good history but confusing theology. This companion to the classic bestseller Systematic Theology is unique among historical theologies. Gregg Allison sets out the history of Christian doctrine according to a topical chronological arrangement: one theological element at a time instead of committing to a discussion of theological thought according to its historical appearance alone. This method allows you to contemplate one tenet of Christianity at a time along with its formulation in the early church through the Middle Ages, Reformation, and post-Reformation era and into the modern period. Become familiar with the primary source material of Christian history's most important contributors such as Cyprian, Augustine, Aquinas, Luther, Calvin, Barth, and others. Understand the development of evangelical doctrine with a focus on the centrality of the gospel. Discern a sense of urgent need for greater doctrinal understanding in the whole church. Historical Theology is an easy-to-read textbook for any Christian who wants to know how the church has come to believe what it believes today. Gregg Allison's clear and concise structure make this resource an ideal introduction to Christian doctrine.

Historical Theology Alister E. McGrath, 2022-11-10 The newly updated and expanded edition of the bestselling introduction to Historical Theology. Historical Theology: An Introduction to the History of Christian Thought traces the development of Christian theology from its earliest days to the present. Now in its third edition, Historical Theology includes substantial new sections on theodicy, modern African Christologies, and postcolonial theology. Historical

Theology Jaroslav Pelikan, 2014-02-01 Change is a universal phenomenon that commands the attention of the historian For Christian theology change raises special difficulties How are we to reconcile the notion of the revelation of an unchanging God who is abiding truth with the notion of the pervading mutability of all human affairs This problem which is as old as religion is intensified by the Christian belief in the fullness and finality of the revelation made through Jesus Christ Professor Pelikan begins his study of historical theology with this basic problem and traces the origins of the difficulties that inevitably follow upon the admission of the possibility of change His investigations lead him to critically examine the dogmatic solution of Vincent of Lerins the later dialectical interpretation of Abelard the approach of Thomas Aquinas and finally the nineteenth century s Adolf von Harnack to propose a working definition of Christian doctrine and of the task of the historical theologian Pelikan s work is a perceptive and penetrating study of the interaction of history and theology Theology must be historical because man is historical To neglect history or worse still to renounce it is to deny man and theology their common future Historical Theology is a worthy introduction to a task that must continually seek to weld past present and future into a living whole

An Introduction to Christian Theology Justo L. González, Zaida Maldonado Pérez, 2002

This book helps beginning theological students grasp the basics of Christian theology Consciously avoiding the perspective of one school of thought or confessional tradition the authors provide the reader with a brief broad overview of the questions and contents of theological study Their accessible use of language clear organization and careful explanation will prove of invaluable aid to those who are getting their theological feet wet for the first time In the words of its authors this book offers an introduction to the fuller spectrum of Christian theology as it has developed through the centuries Few writers address the historical development of the classic doctrines and the contemporary resonance as adroitly as Gonzalez and Perez The chapter on Jesus Christ for example presents concise summaries of the treatments of Christ s person leading up to Chalcedon while suggesting a need for a multiplicity of images in understanding the work of Christ that liberates the whole person and restores all creation Beginning students as a result are invited into a living theological conversation where the contested claims of the past have continued relevance in a contemporary era beset by its undervaluing of the body and creation Broadly ecumenical in tenor with reference to theologians from nearly every century the work should appeal to both a popular readership and introductory students in college and seminary One disappointing aspect of the book is an absence of Latino a feminist and liberation perspectives For a work that argues for the contextuality of all theology and from authors whose previous work has been monumental in Hispanic theological education this lack is surprising David H Jensen Austin Presbyterian Theological Seminary in Religious Studies Review Volume 29 Number 3 July 2003
