Creation of the American Republic William M. Fowler,2025-09-02 George Washington and the Creation of the American Republic debunks the portrayal of George Washington in what is described by historians as the Critical Years 1781 1789 a time when he was deeply involved in land speculation western expansion scientific farming canal building political affairs and family matters directing the nation toward a strong central government **William Stimpson and the Golden Age of**

American Natural History Ronald Scott Vasile,2018-06-19 William Stimpson was at the forefront of the American natural history community in the latter half of the nineteenth century Stimpson displayed an early affinity for the sea and natural history and after completing an apprenticeship with famed naturalist Louis Agassiz he became one of the first professionally trained naturalists in the United States In 1852 twenty year old Stimpson was appointed naturalist of the United States North Pacific Exploring Expedition where he collected and classified hundreds of marine animals Upon his return he joined renowned naturalist Spencer F Baird at the Smithsonian Institution to create its department of invertebrate zoology He also founded and led the irreverent and fun loving Megatherium Club which included many notable naturalists In 1865 Stimpson focused on turning the Chicago Academy of Sciences into one of the largest and most important museums in the country Tragically the museum was destroyed in the Great Chicago Fire of 1871 and Stimpson died of tuberculosis soon after before he could restore his scientific legacy This first ever biography of William Stimpson situates his work in the context of his time As one of few to collaborate with both Agassiz and Baird Stimpson s life provides insight into the men who shaped a generation of naturalists the last before intense specialization caused naturalists to give way to biologists Historians of science and general readers interested in biographies science and history will enjoy this compelling biography America's

Road to Empire Piero Gleijeses,2021-09-09 America s Road to Empire surveys and analyses United States foreign relations from the country s independence in 1776 until its entry into World War One in 1917 using primary source materials and case studies The book covers key themes including the role that notions of white superiority played in US foreign policy the search for absolute security that repeatedly led the United States to trample on the liberties of other countries and the idea of American exceptionalism the clash between the idealism of US rhetoric and its actions which has led to a persistent failure to understand how European U S policy actually was Whilst providing analytical overview Piero Gleijeses also uses case studies which examine overlooked aspects of U S foreign policy particularly concerning marginalized populations He draws on archival U S and European primary sources and incorporates the latest research from the US British French and Spanish archives as well as newspapers from the United States Britain France Germany Spain and Mexico A highly original account

of the United States rise to power drawing on multilingual scholarship this is an important book for all students and scholars of United States foreign relations up to the First World War *The Mexican-American War* Laura Loria,2017-12-15 On first glance the Mexican American War seems to be a simple border dispute However upon closer examination it is clear that the war was also about slavery politics citizenship and resources Illuminating text explores the events preceding the war the motivations of the key players and the effects on Mexican American and indigenous people Primary source material will bring the reader back in time to the period of westward expansion in America when manifest destiny went from idea to reality Colorful images period maps and provocative questions about the war engage young readers with this exciting period in American history *America's Civil War (eBook)* Tim McNeese,2003-09-01 America s Civil War provides a detailed overview of the cultural and ideological landscape of post colonial America that set the stage for war and vividly describes the course of the conflict that took more American lives than any war in history and altered the course of the nation Emphasis is placed on the fierce cultural and economic rivalry between the industrial North and the agricultural South and the pivotal rift concerning slavery that led to this irrepressible and bloody fight The lives of common soldiers the weapons and methods of warfare the presidency of Abraham Lincoln and the role of other significant political and military leaders are among the topics discussed as well as the abolitionist movement the underground railroad and dramatic figures such as Harriet Beecher Stowe and John Brown Challenging review questions encourage meaningful reflection and historical analysis Maps tests answer key and extensive bibliography are included *Cartographic Expeditions and Visual Culture in the Nineteenth-Century Americas* Ernesto Capello,Julia B. Rosenbaum,2020-11-16 During the nineteenth century gridding graphing and surveying proliferated as never before as nations and empires expanded into hitherto unknown territories Though nominally geared toward justifying territorial claims and collecting scientific data expeditions also produced vast troves of visual and artistic material This book considers the explosion of expeditionary mapping and its links to visual culture across the Americas arguing that acts of measurement are also aesthetic acts Such visual interventions intersect with new technologies with sociopolitical power and conflict and with shifting public tastes and consumption practices Several key questions shape this examination What kinds of nineteenth century visual practices and technologies of seeing do these materials engage How does scientific knowledge get translated into the visual and disseminated to the public What are the commonalities and distinctions in mapping strategies between North and South America How does the constitution of expeditionary lines reorder space and the natural landscape itself The volume represents the first transnational and hemispheric analysis of nineteenth century cartographic aesthetics and features the multi disciplinary perspective of historians geographers and art historians **EBOOK: Introduction to Mass Communication: Media Literacy and Culture** BARAN, STANLEY,2011-02-16 EBOOK Introduction to Mass Communication Media Literacy and Culture
