W. Sindelar, 2010-11-19 The purpose of Power Teaching is to change teachers attitudes toward testing by illustrating the
power that meaningful assessment brings to the art and science of teaching The book also shares efficient and practical tools
and strategies for using formative and summative assessment results to actually enhance teaching effectiveness and students
learning Using testimonials from power teachers the text shows classroom teachers how they too can use assessment
analyses to inform their teaching provide motivational feedback to their students and monitor their students progress toward
learning targets and standards This handy reference argues that testing can be a power tool for helping teachers rather than
an intrusion on academic freedom and valuable instructional time A key distinction of the book is its coverage of using
technology to collect and analyze assessment data Holt Biology: Principles and Explorations Holt Rinehart &

Achievement Nancy W. Sindelar, 2011-11-11 Schools are drowning in test data but many schools do little with test results
other than sort students into various categories of proficiency or lack thereof Some educators feel testing has taken the joy
out of teaching Others believe valuable instructional time has been lost as a result of testing Yet NCBL and other federal and
state mandates have placed educators under increasing pressure to make certain all students meet standards on high stakes
tests Now more than ever teachers and administrators need to embrace testing as a valuable classroom tool to guide
instruction use efficient technological resources available for test scoring and analysis and profit from the benefits of test
analysis to increase learning and achievement Using Test Data for Student Achievement shows educators step by step how to
use test data to facilitate student learning The book combines research technology and Sindelar's experience as a teacher
and administrator to provide practical and efficient ways to use test data to increase learning close achievement gaps and
even raise test scores The Publishers' Trade List Annual, 1971 *Textbooks in Print*, 1957 *Children's Books in Print*,
