Holy Cooperation Building Graceful Economies:

Holy Cooperation! Andrew McLeod, 2009-01-01 The first Christians immediately set about creating a social structure based on democratic control of their collective resources which were shared freely While this was a voluntary system it carried great spiritual weight and was a continuation of values that were clearly encouraged in the stories of the Old Testament This style of organizing can also be found in the modern cooperative movement which is made up of thousands of democratically controlled businesses serving millions of members worldwide This movement touches the lives of nearly half of Americans and has grown into a comprehensive economic system in other parts of the world Christians have played key roles in the development of this movement but the theological basis for this participation is not widely understood Holy Cooperation is an examination of what the Bible teaches about social organizing and an exploration of some of the cooperative ways that Christians have worked together Through cooperation we may act as our brothers and sisters keepers while staying true to Jesus's teachings of liberation

Care for the World Frank Pasquale, 2019-06-20 This book applies and explores Catholic social thought focusing on the relevance of the encyclical Laudato Si in an era of climate crises

Everything for Everyone Nathan Schneider, 2018-09-11 The origins of the next radical economy is rooted in a tradition that has empowered people for centuries and is now making a comeback A new feudalism is on the rise While monopolistic corporations feed their spoils to the rich more and more of us are expected to live gig to gig But as Nathan Schneider shows an alternative to the robber baron economy is hiding in plain sight we just need to know where to look Cooperatives are jointly owned democratically controlled enterprises that advance the economic social and cultural interests of their members They often emerge during moments of crisis not unlike our own putting people in charge of the workplaces credit unions grocery stores healthcare and utilities they depend on Everything for Everyone chronicles this revolution from taxi cooperatives keeping Uber at bay to an outspoken mayor transforming his city in the Deep South to a fugitive building a fairer version of Bitcoin to the rural electric co op members who are propelling an aging system into the future As these pioneers show co ops are helping us rediscover our capacity for creative powerful and fair democracy

Wisdom Commentary: Ezra-Nehemiah Deborah Ann Appler, Terry Ann Smith, 2025-09-15 In this volume Deborah Appler and Terry Ann Smith offer a sustained investigation and feminist critique moves beyond traditional historical and theological interpretations of Ezra Nehemiah Their intersectional analysis engages themes of gender power economics and social justice Tensions between group inclusion and exclusion are evident in Ezra Nehemiah and the authors bring attention to the complexities associated with identity formation and boundary making for a repatriated community Their volume amplifies often overlooked voices in the text and offers insight into how issues of faith marginalization and communal solidarity complicate what it means to come home Their collaborative analysis of Ezra Nehemiah demonstrates how ancient and modern communities grapple with community formation and identity amidst ever evolving social and cultural challenges

Gracefully: Making a Built Environment that is Fit for the Future Emilio Garcia,Brenda Vale,Robert Vale,2021-07-24 This innovative book investigates the concept of collapse in terms of our built environment exploring the future transition of

modern cities towards scenarios very different from the current promises of progress and development This is not a book about the end of the world and hopeless apocalyptic scenarios It is about understanding change in how and where we live Collapse is inevitable but in the built environment collapse could imply a manageable situation an opportunity for change or a devastating reality Collapsing gracefully means that there might be better ways to coexist with collapse if we learn more about it and commit to rebuild our civilisations in ways that avoid its worst effects This book uses a wide range of practical examples to study critical changes in the built environment to contextualise and visualise what collapse looks like to see if it is possible to buffer its effects in places already collapsing and to propose ways to develop greater resilience The book challenges all agents and institutions in modern cities their designers and planners as well as their residents and users to think differently about built environment so as to ease our coexistence with collapse and not contribute to its causes
