Home Waters George B Handley, 2010-10-31 People who flyfish know that a favorite river bend a secluded spot in moving waters can feel like home a place you know intimately and intuitively In prose that reads like the flowing current of a river scholar and essayist George Handley blends nature writing local history theology environmental history and personal memoir in his new book *Home Waters A Year of Recompenses on the Provo River* Handley's meditations on the local Provo River watershed present the argument that a sense of place requires more than a strong sense of history and belonging it requires awareness and commitment Handley traces a history of settlement along the Provo that has profoundly transformed the landscape and yet neglected its Native American and environmental legacies As a descendent of one of the first pioneers to irrigate the area and as a witness to the loss of orchards open space and an eroded environmental ethic Handley weaves his own personal and family history into the landscape to argue for sustainable belonging In avoiding the exclusionist and environmentally harmful attitudes that come with the territorial claims to a homeland the flyfishing term home waters is offered as an alternative a kind of belonging that is informed by deference to others to the mysteries of deep time and to a fragile dependence on water While it has sometimes been mistakenly assumed that the Mormon faith is inimical to good environmental stewardship Handley explores the faith's openness to science its recognition of the holiness of the creation and its call for an ethical engagement with nature A metaphysical approach to the physical world is offered as an antidote to the suicidal impulses of modern society and our persistent ambivalence about the facts of our biology and earthly condition *Home Waters* contributes a perspective from within the Mormon religious experience to the tradition of such Western writers as Wallace Stegner Terry Tempest Williams Steven Trimble and Amy Irvine Winner of the Mormon Letters Award for Memoir

Tributary Voices Paul A. Formisano, 2022-04-26 The Colorado River is in crisis Persistent drought climate change and growing demands from ongoing urbanization threaten this life source that provides water to more than forty million people in the U S and Mexico Coupled with these challenges are our nation's deeply rooted beliefs about the region as a frontier garden and wilderness that have created competing agendas about the river as something to both exploit and preserve Over the last century and a half citizens and experts looked to law public policy and science to solve worsening water problems Yet today's circumstances demand additional perspectives to foster a more sustainable relationship with the river Through literary rhetorical and historical analysis of some of the Colorado River's lesser known stakeholders *Tributary Voices* considers a more comprehensive approach to river management on the eve of the one hundredth anniversary of the signing of the Colorado River Compact which governs the allocation of water rights to the seven states in the region Ranging from the early twentieth century to the present *Tributary Voices* examines nature writing women's narratives critiques of dam development the Latino communities appeals for river restoration American Indian authors and tribal nations claims of water sovereignty and teachings about environmental stewardship and provident living This innovative study models an

Religion and Politics Beyond the Culture Wars Darren Dochuk, 2021-10-15 This volume reframes the narrative that has too often dominated the field of historical study of religion and politics the culture wars Influenced by culture war theories first introduced in the 1990s much of the recent history of modern American religion and politics is written in a mode that takes for granted the enduring partisan divides that can blind us to the complex and dynamic intersections of faith and politics The contributors to *Religion and Politics Beyond the Culture Wars* argue that such narratives do not tell the whole story of religion and politics in the modern age This collection of essays authored by leading scholars in American religious and political history challenges readers to look past familiar clashes over social issues to appreciate the ways in which faith has fueled twentieth century U S politics beyond predictable partisan divides and across a spectrum of debates ranging from environment to labor immigration to civil rights domestic legislation to foreign policy Offering fresh

Rube Goldberg Machines Adam S. Miller, 2012-04-01 Doing theology is like building a comically circuitous Rube Goldberg machine you spend your time tinkering together an unnecessarily complicated impractical and ingenious apparatus for doing things that are in themselves simple But there is a kind of joy in theology s gratuity there is a pleasure in its comedic machination and ultimately if the balloon pops the hamster spins the chain pulls the bucket empties the pulley lifts and voila the book s page is turned some measurable kind of work is accomplished But this work is a byproduct The beauty of the machine like all beauty is for its own sake Theology maybe especially Mormon theology requires this kind of modesty The Church neither needs nor endorses our Rube Goldbergian flights The comic aspect of the arrows we wing at cloudy skies must be kept firmly in mind The comedy of it both saves us from theology and commends us to it Engaged in this work theology has only one definitive strength it can make simple things difficult Good theology forces detours that divert us from our stated goals and prompt us to visit places and include people that would otherwise be left aside The measure of this

strength is charity Theological detours are worth only as much charity as they are able to show They are worth only as many waylaid lives and lost objects as they are able to embrace Rube Goldberg machines models of inelegance are willing to loop anything into the circuit tax collectors prostitutes lepers Democrats whatever In charity the grace of a disinterested concern for others and the gratuity of an unnecessary complication coincide Theology helps us to find religion by helping us to lose it Theology makes the familiar strange It ratchets uncomfortable questions into complementary shapes and helps recover the trouble that is charity's substance This book is itself a Rube Goldberg machine pieced together from a variety of essays written over the past ten years They offer explicit reflections on what it means to practice theology as a modern Mormon scholar and they stake out substantial and original positions on the nature of the atonement the soul testimony eternal marriage humanism and the historicity of the Book of Mormon
