Homoseksualiteit in Nederland Rob Tielman, 1982 **The Lesbian and Gay Movement and the State** David Paternotte, 2016-03-03 By analyzing the relationship between lesbian and gay movements and the state this ground breaking book addresses two interconnected issues to what extent is the lesbian and gay movement influenced by the state and to a lesser extent whether the lesbian and gay movement has somehow influenced the state for instance by altering forms of sexual regulation Given the diversity in national trajectories this book covers fifteen countries This enables the volume to shed light on different kinds of relationships between these groups and the state as well as on the way they have evolved in recent decades *The Lesbian and Gay Movement and the State* Comparative Insights into a Transformed Relationship fills an important gap in the literature on lesbian and gay activism However this book also provides important and innovative insights into broader issues in international political science public policy and comparative politics as well as issues in social movement studies These include the role of the state in constructing citizen identities the heteronormative way in which many traditional citizen entitlements and benefits were constructed state civil society relations judicial activism the impact of federalism and the increasing globalization of sexual identities *The Dutch Response To HIV* Theo Sandfort, 2002-09-11 The Netherlands response to AIDS is widely regarded as well organized and effective This is largely due to the timely response to the threat of the disease with a prevention programme starting in 1982 This Dutch example provides an instructive case study for other countries with relevance for policy makers now and in the future The book documents and discusses Dutch prevention policy most specifically the prevention policies and activities for various target groups the focus on prevention research and studies on sexuality and health behaviour and the emphasis on individual responsibility *De acceptatie van homoseksualiteit door etnische en religieuze groepen in Nederland* Willem Huijnk, 2014 Studie waarin op basis van bestaande data een beeld wordt gegeven van de acceptatie van homoseksualiteit binnen etnische en religieuze groepen in Nederland *Queer Cities, Queer Cultures* Jennifer V. Evans, Matt Cook, 2014-08-28 *Queer Cities Queer Cultures* examines the formation and make up of urban subcultures and situates them against the stories we typically tell about Europe and its watershed moments in the post 1945 period The book considers the degree to which the iconic events of 1945 1968 and 1989 influenced the social and sexual climate of the ensuing decades raising questions about the form and structure of the 1960s sexual revolution and forcing us to think about how we define sexual liberalization and where how and on whose terms it occurs An international team of authors explores the role of America in shaping particular forms of subculture the significance of changes in legal codes differing modes of queer consumption and displays of community the difficult fit of queer as opposed to gay and lesbian politics in liberal democracies the importance of mobility and immigration in modulating queer urban life the challenge of AIDS and the arrival of the internet By exploring the queer histories of cities from Istanbul to Helsinki and Moscow to Madrid *Queer Cities Queer Cultures* makes a significant contribution to our

understanding of urban history European history and the history of gender and sexuality **Sexual Revolutions** G. Hekma,A. Giami,2014-05-13 Sexual Revolutions explores the sexual revolution of the late twentieth century in several European countries and the USA by engaging with themes from sexual freedom and abortion to pornography and sexual variation This work discusses the involvement of youth feminism left liberalism arts science and religion in the process of sexual change **The Greenwood Encyclopedia of LGBT Issues Worldwide** Chuck Stewart,2009-12-18 This set has an ambitious scope with the goal of offering the most up to date international overview of key issues in the lives of lesbian gay bisexual and transgender individuals HIV AIDS has been a major media focus but this set fosters a broader understanding of the status of LGBT individuals in their society More than 70 countries are represented The clear accessible prose is appropriate for high school student research on up The material is especially needed in a cultural climate that increasingly supports and requires information about LGBT populations The content is useful for a paper on a hot topic health classes discussion groups and gay straight alliance groups *Public Discourses About Homosexuality and Religion in Europe and Beyond* Marco Derks,Mariecke van den Berg,2020-10-01 This volume addresses three things many people do not discuss candidly with strangers or mere acquaintances God sex and politics These can easily become topics of fierce debate particularly when taken together as has been the case with same sex marriage legislation the Vatican s criticism of gender ideology or the repeatedly asserted claim that Islam homosexuality and gender equality are essentially incompatible This volume investigates what is at stake in these constructions of religion and homosexuality in public discourses Starting with the Netherlands as a special case study it proceeds with contributions on other predominantly postsecular countries in central northern and southern Europe as well as several postcommunist and postcolonial countries beyond Europe Combining contemporary and historical perspectives and approaches from both the humanities and the social sciences the contributors explore how national and European identities are constructed and contested in debates on religion and homosexuality Chapter 2 and Chapter 8 of this book are available open access under a CC BY 4 0 license at link.springer.com

Queer in Europe Robert Gillett,2016-04-15 Queer in Europe takes stock of the intellectual and social status and treatment of queer in the New Europe of the twenty first century addressing the ways in which the Anglo American term and concept queer is adapted in different national contexts where it takes on subtly different overtones determined by local political specificities and intellectual traditions Bringing together contributions by carefully chosen experts this book explores key aspects of queer in a range of European national contexts namely Belgium Cyprus England France Germany Hungary Ireland Italy The Nordic Region The Netherlands Poland Russia and Spain Rather than prescribing a universalizing definition the book engages with a wide spectrum of what is meant by queer as each chapter negotiates the contested border between direct queer activist action based on identity categories and more plural queer strategies that call these categories into question The first volume in English devoted to the exploration of queer in Europe this book makes an important

intervention in contemporary queer studies *LGBTQs, Media and Culture in Europe* Alexander Dhoest, Lukasz Szulc, Bart Eeckhout, 2016-11-10 Media matter particularly to social minorities like lesbian gay bisexual transgender and queer people Rather than one homogenised idea of the global gay what we find today is a range of historically and culturally specific expressions of gender and sexuality which are reflected and explored across an ever increasing range of media outlets This collection zooms in on a number of facets of this kaleidoscope each chapter discussing the intersection of a particular European context and a particular medium with its affordances and limitations While traditional mass media form the starting point of this book the primary focus is on digital media such as blogs social media and online dating sites All contributions are based on recent original empirical research using a plethora of qualitative methods to offer a holistic view on the ways media matter to particular LGBTQ individuals and communities Together the chapters cover the diversity of European countries and regions of LGBTQ communities and of the contemporary media ecology Resisting the urge to extrapolate they argue for specificity contextualisation and a provincialized understanding of the connections between media culture gender and sexuality Queer Jewish Groups in Europe (1972-1990s) Jan Wilkens, 2025-03-31 In the 1970s queer Jews became excited by the developments of the Gay Liberation Movement in both the US and Europe Until then they were not able to express their queerness in Jewish communities and hoped for new inclusive spaces Yet they quickly realized that the movement was not as welcoming as anticipated Thus they started to organize in February 1972 the world's first queer Jewish group became publicly visible in London with its symposium The Jewish Homosexual in Society The Jewish Gay Group began tackling the exclusion of non heteronormative Jews in British Jewish and queer communities Soon after two more queer Jewish groups formed Beit Haverim House of Friends in Paris and Sjalhomo a neologism of shalom and homosexual in Amsterdam Besides their goal of emancipation these groups brought together their members based on shared experiences as both Jewish and queer opening up much needed spaces for social encounters The groups also established a Europe wide support network that enabled international collaboration for more than a decade This study archives these groups histories and that of their network By doing so it broadens prevalent narratives of Europe's post World War II Jewry and queers the discipline of Jewish History **Liefde in Holland**, 1998 *Queer Sites* David Higgs, 2002-01-04 There are areas which can be described as gay space in that they have many lesbians and gays in the population Queerspace A History of Urban Sexuality edited by David Higgs offers a history of gay space in the major cities from the early modern period to the present The book focuses on the changing nature of queer experience in London Amsterdam Rio de Janeiro San Francisco Paris Lisbon and Moscow This book provides an interdisciplinary analysis of extensive source material including diaries poems legal accounts and journalism By concentrating the importance of the city and varied meeting places such as parks river walks bathing places the street bars and even churches the contributors explore the extent to which gay space existed the degree of social collectiveness felt by those who used this space and their individual histories **Interdisciplinary**
