Communities of Death Adam C. Bradford, 2014-12-18 To 21st century readers 19th century depictions of death look macabre if not maudlin the mourning portraits and quilts the postmortem daguerreotypes and the memorial jewelry now hopelessly if not morbidly distressing Yet this sentimental culture of mourning and memorializing provided opportunities to the bereaved to assert deeply held beliefs forge social connections and advocate for social and political change This culture also permeated the literature of the day especially the works of Edgar Allan Poe and Walt Whitman In *Communities of Death* Adam C Bradford explores the ways in which the ideas rituals and practices of mourning were central to the work of both authors While both Poe and Whitman were heavily influenced by the mourning culture of their time their use of it differed Poe focused on the tendency of mourners to cling to anything that could remind them of their lost loved ones Whitman focused not on the mourner but on the soul s immortality positing an inevitable reunion Yet Whitman repeatedly testified that

Poe's Gothic and macabre literature played a central role in spurring him to produce the transcendent *Leaves of Grass*. By unveiling a heretofore marginalized literary relationship between Poe and Whitman, Bradford rewrites our understanding of these authors and suggests a more intimate relationship among sentimentalism, romanticism, and transcendentalism than has previously been recognized. Bradford's insights into the culture and lives of Poe and Whitman will change readers' understanding of both literary icons.

Communication and Interviewing Skills for Practice in Social Work, Counselling and the Health Professions Patricia Higham, 2019-07-30 This book supports and develops the communication and interviewing skills of professional practitioners and student practitioners in social work, counselling, and the health professions. Combining work on personal and social constructs, the search for meaning, and ecological theory, this book both provides an integrated discussion of practice and presents a balanced approach when discussing psychological, biological, and social influences on individual well-being. Furthermore, it emphasises the influence of social contexts on behaviour and well-being, as well as valuing and encouraging the application of practitioners' prior experience and learning to new knowledge and understanding. Containing a range of practice examples to stimulate learning, this book promotes a collaboration between the professions and welcomes the contributions of people who use services: patients and clients. *Communication and Interviewing Skills for Practice in Social Work, Counselling and the Health Professions* will be of interest to all undergraduate and postgraduate social work students, as well as new and experienced professional health care practitioners.

One Tree, Many Branches Di Gammage, Bozena Merrick, 2023-09-15 The book includes contributions from Audrey Adeyemi, Tasha Bailey, Kelly Brackett, Jamie Butterworth, Alix Hearn, Evania Inward, Irene Mburu, Sasha Morphitis, Magda Raczynska, Nadja Rolli, Zisi Schleider, and Anna Tuttle. *One Tree, Many Branches: The Practice of Integrative Child and Adolescent Psychotherapy* celebrates the twentieth anniversary of the pioneering child and adolescent psychotherapy and counselling training organisation, Terapia, and the achievements of its trainees, tutors, and staff who provide highly specialised counselling, psychotherapy, and bespoke mental health services for young people, children, parents, and families. Terapia works with individuals, organisations, schools, and the statutory and non-statutory sector, and is a strong voice for child psychotherapy as a distinct and specialist profession. Therapeutic work with children requires a different set of skills and knowledge to that of adult psychotherapists. For example, much of the work is non-verbal and uses play and metaphor alongside talking. It also requires involvement with the system around the child, such as parents, families, and professionals, and the management of conflicting agendas and politics to act on behalf of the child. Subjects discussed within its pages include ecopsychotherapy, autism, the lack of male psychotherapists working with refugees, racial trauma, female genital mutilation, working in closed communities, and foetal alcohol spectrum disorder. The book is essential reading for all who work with children and opens up exciting and pioneering new approaches for meeting the multifarious needs of our children and adolescents today.
