Lost And Found Moreno Hart Mysteries 3:

Transcript of the Enrollment Books New York (N.Y.). Board of Elections,1905 **Kids Caught in the Psychiatric Maelstrom** Elizabeth E. Root MSW, MS Ed,2009-09-23 This book offers a warning that American children are receiving increased chemical treatment from psychiatrists and provides a primer on how to improve the emotional health of kids without drugs Maelstrom is an apt metaphor for the inexorable deterioration many children experience inside the mental health system Kids Caught in the Psychiatric Maelstrom How Pathological Labels and Therapeutic Drugs Hurt Children and Families challenges current treatment practices and addresses the critically important issue of excessive prescribing of psychiatric medications to children This encyclopedic work reveals inside the system information emphasizing the theoretical divide at the root of the controversy over diagnosis and treatment It explains how the 1990s decade of the brain replaced talk therapy with biochemical treatments leading to the hegemony of the pharmaceutical industry and subsequently the massive drugging of children Author Elizabeth E Root details common diagnoses and treatments explaining up to date brain research with some surprising interpretations and noting dangerous national precedents to mental screening Finally she illuminates pathways toward solutions and healthier families sharing nonpsychiatric explanations for the nation s increase of troubled children and the rationale and research supporting non drug alternative approaches to childhood distress **Prosecutorial Discretion in the International Criminal Court** Farid Mohammed Rashid,2021-12-15 This book provides the first scholarly investigation of prosecutorial discretion in the International Criminal Court ICC from an interdisciplinary perspective This work analyses the discretionary power of the ICC prosecutor and its scope It explains that there is a tendency to overlook the necessity of distinguishing between the various usages of discretion when exercised as a power authorised by the law and effect when applying indeterminate legal thresholds The author argues that the latter indeterminacy may give decision makers an unwarranted opportunity to exercise a wide range of discretion where extra legal factors may be considered In comparison prosecutorial discretion allows decision makers to consider extra legal considerations This book also discusses the relevance of political considerations within the decision making process in the context of the exercise of prosecutorial discretion It suggests that there need not be a conflict between the broad sense of justice as outlined in the Statute and political factors in giving effect to decisions This book will be of interest to students of international law global governance and international relations **New York Magazine** ,1986-06-23 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Cumulated Index to the Books** ,1965
