systemic inequality and learn to confront legacies of harm Discover the healing power of listening as well as the art and skills of accompanying someone in pain Further grasp how caregivers pastors counselors and other healers many with their own wounds can benefit from soft spaces too Marked by history and surrounded by violence and loneliness we all long for healing In the tradition of esteemed writers like Bryan Stevenson and Cole Arthur Riley Walker writes about how community helps us transfigure trauma There is nothing dramatic about listening to someone s story or sharing our own But there is mystery here and sacredness No one has to be left alone *You Give Good Love* J.J. Murray,2015-02-12 It s been eight years since Hope Warren had her heart broken on Christmas Eve but she still detests the holiday and celebrations in general Wasting her time and her art degree at a job she clearly hates the only thing she s longing for is a dream home way out of reach So when outgoing Irishman Dylan Healy keeps getting in her face she s sure there s a catch He s kind charismatic and challenging her idle creativity It may be her least favorite time of year but suddenly she s willing to try everything and anything especially Dylan himself Dylan has enough on his plate between launching his online greeting card company at the height of the season and starting an art themed daycare center But he can t resist teasing Hope out of her holiday cynicism turning her ideas into crazy profits or wanting more of the vibrant sensual woman she truly is And with the days counting down to Christmas Eve he s willing to put everything on the line to convince her that what they have is the gift of a lifetime

Baxter.] ,1843 *Strange Stars* Jason Heller,2018-06-05 A Hugo Award winning author and music journalist explores the weird and wild story of when rock n roll met the sci fi world of the 1970s As the 1960s drew to a close and mankind trained its telescopes on other worlds old conventions gave way to a new kind of hedonistic freedom that celebrated sex drugs and rock n roll Derided as nerdy or dismissed as fluff science fiction rarely gets credit for its catalyzing effect on this revolution In *Strange Stars* Jason Heller recasts sci fi and pop music as parallel cultural forces that depended on one another to expand the horizons of books music and out of this world imagery In doing so he presents a whole generation of revered musicians as the sci fi obsessed conjurers they really were from Sun Ra lecturing on the black man in the cosmos to Pink Floyd jamming live over the broadcast of the Apollo 11 moon landing from a wave of Star Wars disco chart toppers and synthesiser wielding post punks to Jimi Hendrix distilling the purplish haze he discovered in a pulp novel into psychedelic song Of course the whole scene was led by David Bowie who hid in the balcony of a movie theater to watch 2001 A Space Odyssey and came out a changed man If today s culture of Comic Con fanatics superhero blockbusters and classic sci fi reboots has us thinking that the nerds have won at last *Strange Stars* brings to life an era of unparalleled and unearthly creativity in magazines novels films records and concerts to point out that the nerds have been winning all along *A Complete Edition of the Poets of Great Britain* ,1794
