Janeiro from the 1850s to the 1930s Until the 1920s Rio was Brazil's economic hub main industrial city and prime consumer market Meat consumption was an indicator of living standards and a matter of public concern The work unveils that in the second half of the nineteenth century the city was well supplied with red meat Initially dwellers relied mostly on salted meat then in the latter decades of the 1800s two sets of changes upgraded fresh meat deliveries First ranching expansion and transportation innovation in southeast and central west Brazil guaranteed a continuous flow of cattle to Rio Second the municipal centralization of meat processing and distribution made its provision regular and predictable By the early twentieth century fresh meat replaced salted meat in the urban marketplace This study examines these developments in light of national and global developments in the livestock and meat industries *Nevertheless* Ashley Boggan, 2025-05-06 2020 marked the 100th anniversary of the 19th Amendment While some things have changed others haven't This book tells the story of American Methodist women's efforts fight for women's rights beginning with the Women's Christian Temperance Union and ending with the MeToo movement Each chapter documents particular Methodist women and provides the reader with a basic historic context of the time or situation at hand as it shows how Methodist women engaged and fought for women's equality or women's rights in American society and American Methodism The faith of these Methodist women emboldened them to reach beyond their social confines to find political avenues of social justice As women engaged in mission they sought to not simply fix social ills but to prevent them from happening again They addressed the causes of oppression and by stepping out of their place made a place for others **Kew Book of Embroidered Flowers (Hardback Library edition)** Burr, 2020 *Cyberbullies, Cyberactivists, Cyberpredators* Lauren Rosewarne, 2016-01-25 Written by an expert in media popular culture gender and sexuality this book surveys the common archetypes of Internet users from geeks nerds and gamers to hackers scammers and predators and assesses what these stereotypes reveal about our culture's attitudes regarding gender technology intimacy and identity The Internet has enabled an exponentially larger number of people individuals who are members of numerous and vastly different subgroups to be exposed to one other As a result instead of the simple jocks versus geeks paradigm of previous eras our society now has more detailed stereotypes of the undesirable the under the radar and the ostracized cyberperverts neckbeards goths tech nerds and anyone with a non heterosexual identity Each chapter of this book explores a different stereotype of the Internet user with key themes such as gender technophobia and sexuality explored with regard to that specific characterization of online users Author Lauren Rosewarne PhD supplies a highly interdisciplinary perspective that draws on research and theories from a range of fields psychology sociology and communications studies as well as feminist theory film theory political science and philosophy to analyze what these stereotypes mean in the context of broader social and cultural issues From cyberbullies to chronically masturbating porn addicts to desperate online daters readers will see the paradox in popular culture's message that while Internet use is universal actual Internet users are somehow subpar less desirable less cool less friendly than everybody else
