

THE GREAT GATSBY

CHAPTERS FIVE - SIX ROLL OF THE DIE VOCABULARY ACTIVITY

For each of the vocabulary words from Chapters Five and Six, roll the die.

Roll the die, then according to the number you rolled, choose a word. Keep track of your work on a separate piece of paper.

VOCABULARY WORDS

reprehensibly	rumored	deficient	facile
scrutinized	endured	nebulous	trifling

THE GREAT GATSBY

CHAPTERS ONE - TWO TWO TRUTHS AND A LIE ACTIVITY

For this activity, you will be working in groups of 3-6 students. As a group, make statements about each vocabulary word. One of these statements should be the word is used in the novel, the word's meaning (use a dictionary if you need it), or we may use the word today.

Be as creative as you like, but be sure that two of the statements are true and one is false. (You may use the word in the novel, the word's meaning, or we may use the word today.)

THE GREAT GATSBY

CHAPTERS THREE - FOUR PINTEREST VOCABULARY ACTIVITY

For selected vocabulary words from Chapters Three and Four, you will be creating a Pinterest Board. If you are not familiar with Pinterest, it is an idea-sharing site in which people discover and learn about things visually through collections of "boards."

Think of Pinterest like a giant digital bulletin board where you can keep things you love, share ideas and interests, and borrow other people's ideas. The most striking thing about it is that 90% of Pinterest is visual.

The image you see below is of a board called "Dinner Ideas." Each individual picture is called a pin. Of course, each pin relates to the name of the board - in this case, dinner ideas.

Young Adult and Canonical Literature Paula Greathouse, Victor Malo-Juvera, 2021-03-15 In the last decade alone the world has changed in seismic ways as marriage equality has been ruled on by the supreme court social justice issues such as #MeToo and Black Lives Matter have arisen and issues of immigration and deportation have come to the forefront of politics across the globe Thus there is a need for an updated text that shares strategies for combining canonical and young adult literature that reflects the changes society has and continues to experience The purpose of our collection is to offer secondary 6-12 teachers engaging ideas and approaches for pairing young adult and canonical novels to provide unique examinations of topics that teaching either text in isolation could not afford Our collection does not center canonical texts and most chapters show how both texts complement each other rather than the young adult text being only an extension of the canonical Within each volume the chapters are organized chronologically according to the publication date of the canonical text The pairings offered in this collection allow for comparisons in some cases for extensions in others and for critique in all Volume 2 covers *The Canterbury Tales* 1392 through *Fallen Angels* 1988 *Resources in Education*, 1993

David Foster,2017-10-03 Despite the increasingly global implications of conversations about writing and learning U S
composition studies has devoted little attention to cross national perspectives on student writing and its roles in wider
cultural contexts Caught up in our own concerns about how U S students make the transition as writers from secondary
school to postsecondary education we often overlook the fact that students around the world are undergoing the same
evolution How do the students in China England France Germany Kenya or South Africa the educational systems represented
in this collection write their way into the communities of their chosen disciplines How for instance do students whose mother
tongue is not the language of instruction cope with the demands of academic and discipline specific writing And in what ways
is U S students development as academic writers similar to or different from that of students in other countries With this
collection editors David Foster and David R Russell broaden the discussion about the role of writing in various educational
systems and cultures Students development as academic writers raises issues of student authorship and agency as well as
larger issues of educational access institutional power relations system goals and students roles in society The contributors
to this collection discuss selected writing purposes and forms characteristic of a specific national education system describe
students agency as writers and identify contextual factors social economic linguistic cultural that shape institutional
responses to writing development In discussions that bookend these studies of different educational structures the editors
compare U S postsecondary writing practices and pedagogies with those in other national systems and suggest new
perspectives for cross national study of learning writing issues important to all educational systems Given the worldwide
increase in students entering higher education and the endless need for effective writing across disciplines and nations the
insights offered here and the call for further studies are especially welcome and timely Secondary School Librarian's
