The book describes how they successfully managed to plan and teach integrated themes across the age range in the context of the requirements of the Foundation Stage and the National Curriculum. Each case study has a different focus: science, design and technology, the arts, including an ICT strand, the humanities, including a physical education strand, English and mathematics. Dimensions run through each theme. The book is alive with discussion of children's art, language, drama and music, captured as field notes, writing, drawing and as video tape. Each chapter concludes with suggestions of ways in which readers can develop the ideas in their own contexts.
