Fostering Culture Through Film Elda Buonanno Foley,Patrizia Comello Perry,2016-05-11 The perceived lack of understanding of cultural diversity in the American learning community has led instructors to challenge assumptions and stereotypes while addressing misconceptions Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty first century The common starting point resides in the paradox that exists in today s connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify interpret and compare the different cultural models that learners encounter The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities communities that form the basis of global culture This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities similarities and problems in the second language curricula methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values This work will encourage a dialogue and long lasting conversation on methodologies and teaching strategies rethought reapplied and remolded to the new learning environments **Africa Guide** ,1980

Conversations about Calling Valerie Myers,2013-07-18 Conversations about Calling explores management perspectives of the calling construct Using Max Weber s seminal work The Protestant Ethic and the Spirit of Capitalism as a starting point Myers seeks to enrich management perspectives of calling by integrating the contributions of other disciplines to the literature on calling While the word calling is casually used as shorthand for my ideal job the calling concept has provoked deeper and varied interest among the secular and spiritual circles of both scholars and practitioners Structured around the idea of four conversations the book aims to promote a holistic examination of calling Each conversation has a different focus elucidating important dimensions of calling and together they provide a truly comprehensive view Part I of the

book examines existing conversations in management while part II explores calling across disciplines and eras from the 1500s to the present Finally part III unifies all conversations in a comprehensive theory then discusses its application and implications for practitioners and organizations With a strong theoretical grounding the book also incorporates practical applications supported by case studies Anyone interested in ethics or management and spirituality will benefit from reading this book Please visit www.conversationsaboutcalling.com to rate the book and write a review
