Greater Than You Think A Theologian Answers The Atheists About God:

Greater Than You Think Thomas D. Williams, 2008-06-23 The recent runaway bestsellers *God Is Not Great* and *The God Delusion* have left Christians feeling defensive but not necessarily equipped to refute the accusations of nonbelievers The bestsellers have also provoked those who are the fence about whether God exists and if so whether He is good In his trademark elegant prose Father Williams provides accessible but intellectually rich answers for both groups Questions include Isn't religion just another name for superstition or magic or myth If God is all good and all powerful how can evil exist in the world and Hasn't science disproved God's existence For believers and those searching for something to believe in Father Williams offers an easy to use resource for building up one's own faith and igniting others Greater Than You Think Thomas D. A Sceptic's Guide to Atheism Peter S Williams, 2013-09-01 This is an accessible response to the contemporary anti-God arguments of the new atheists Dawkins Dennett Harris Hitchens Grayling etc Atheism has become militant in the past few years with its own popular mass media evangelists such as Richard Dawkins and Daniel Dennett In this readable book Christian philosopher Peter S Williams considers the arguments of the new atheists and finds them wanting Williams explains the history of atheism and responds to the claims that belief in God causes more harm than good religion is about blind faith and science is the only way to know things science can explain religion away there is not enough evidence for God the arguments for God's existence do not work Williams argues that belief in God is more intellectually plausible than atheism

The New Atheism Victor J. Stenger, 2009-12-04 In recent years a number of bestselling books have forcefully argued that belief in God can no longer be defended on rational or empirical grounds and that the scientific worldview has rendered obsolete the traditional beliefs held by Christianity Judaism and Islam The authors of these books Richard Dawkins Daniel Dennett Sam Harris Christopher Hitchens and Victor J Stenger have come to be known as the New Atheists Predictably their works have been controversial and attracted a good deal of critical reaction In this new book Victor J Stenger whose *God: The Failed Hypothesis* was on the New York Times bestseller list in 2007 reviews and expands upon the principles of New Atheism and answers many of its critics He demonstrates in detail that naturalism the view that all of reality is reducible to matter and nothing else is sufficient to explain everything we observe in the universe from the most distant galaxies to the inner workings of the brain that result in the phenomenon of mind Stenger

disputes the claim of many critics that the question of whether God exists is beyond the ken of science. On the contrary, he argues that the absence of evidence for God is indeed evidence of absence when the evidence should be there and is not. Turning from scientific to historical evidence, Stenger then points out the many examples of evil perpetrated in the name of religion. He also notes that the Bible, which is still taken to be divine revelation by millions, fails as a basis for morality and is unable to account for the problem of unnecessary suffering throughout the world. Finally, he discusses the teachings of ancient nontheist sages such as Buddha, Lao Tzu, and Confucius, whose guidelines for coping with the problems of life and death did not depend upon a supernatural metaphysics. Stenger argues that this way of nature is far superior to the traditional supernatural monotheisms, which history shows can lead to a host of evils.

The New Atheism is a well-argued defense of the atheist position and a strong rebuttal of its critics. **Atheism For Dummies** Dale McGowan, 2013-02-25

The easy way to understand atheism and secular philosophy. For people seeking a non-religious philosophy of life, as well as believers with atheist friends, *Atheism For Dummies* offers an intelligent exploration of the historical and moral case for atheism. Often wildly misunderstood, atheism is a secular approach to life based on the understanding that reality is an arrangement of physical matter with no consideration of unverifiable spiritual forces. *Atheism For Dummies* offers a brief history of atheist philosophy and its evolution, explores it as a historical and cultural movement, covers important historical writings on the subject, and discusses the nature of ethics and morality in the absence of religion. A simple yet intelligent exploration of an often misunderstood philosophy. Explores the differences between explicit and implicit atheism. A comprehensive, readable, and thoroughly unbiased resource. As the number of atheists worldwide continues to grow, this book offers a broad understanding of the subject for those exploring atheism as an approach to living.

Godless Dan Barker, 2008-09

Uncover the truth about atheism in the book. Oliver Sacks calls it a revelation. I don't think anyone can match the devastating clarity, intensity, and honesty which Dan Barker brings to the journey: faith to reason, childhood to growing up, fantasy to reality, intoxication to sobriety.

ADVANCE PRAISE FOR GODLESS

Valuable in the human story are the reflections of intelligent and ethical people who listen to the voice of reason and who allow it to vanquish bigotry and superstition. This book is a classic example.

CHRISTOPHER HITCHENS, author of *God is Not Great*: The most eloquent witness of internal delusion that I know, a triumphantly smiling refugee from the zany surreal world of American fundamentalist Protestantism, is Dan Barker.

RICHARD DAWKINS, author of *The God Delusion*: *Godless* was a revelation to me. I don't think anyone can match the devastating clarity, intensity, and honesty which Dan Barker brings to the journey: faith to reason, childhood to growing up, fantasy to reality, intoxication to sobriety.

OLIVER SACKS, author of *Musicophilia*: In *Godless*, Barker recounts his journey from evangelical preacher to atheist activist, and along the way explains precisely why it is not only okay to be an atheist, it is something in which to be proud.

MICHAEL SHERMER, publisher of *Skeptic Magazine*: *Godless* is a fascinating memoir and a handbook for debunking theism. But most of all, it is a moving testimonial to one man's emotional and intellectual rigor in acclaiming critical
