Waste Management and Life Cycle Assessment for Sustainable Business Practice Ganiyu, Idris Olayiwola, Olarewaju, Odunayo Magret, Ige-Olaobaju, Adejoke Yesimi, Atiku, Sulaiman Olusegun, 2024-08-05 Businesses are grappling with a profound dilemma the pursuit of economic prosperity versus the goal of ecological sustainability. Climate change impacts increase with each passing day compelling industries to reconcile their operations with the urgent need for a sustainable eco conscious paradigm. The book Waste Management and Life Cycle Assessment for Sustainable Business Practice is an authoritative response to this pressing global challenge. Delving into the issues surrounding the environmental impact of economic activities it explores the intersection where industries must navigate the delicate balance between profit making and the preservation of our planet. This book delves into the disconcerting truth that industries are substantial contributors to the global emissions of greenhouse gases. It presents a compelling case supported by the United Nations Environment Program's findings that businesses wield immense power in either perpetuating environmental degradation or steering us towards a greener more sustainable future. Despite the growing voices for eco friendly practices businesses often find themselves caught in the tug of war between profitability and environmental responsibility. This book argues that the time for a shift towards sustainable business practices is now offering a comprehensive guide to academic scholars researchers and professionals seeking to understand and implement transformative strategies.
