History And Narration Looking Back From The Twentieth Century:

History and Narration Marialuisa Bignami, 2011-07-12 The relation between narration and history from the perspective of the twentieth century the century of criticisms suggests a new outlook fit for the new millennium We can no longer look at history and historiography naively but must be aware of the rhetorical strategies that are at work in the writing A research group based in Milan has been working on this topic for a few years discussing authors and texts from different genres and epochs The essays presented here deal with texts chosen because of their intrinsic relevance to the history of English speaking cultures and recent critical perspectives largely but not exclusively indebted to Hayden White Thus the volume considers instances of narrativity and historical discourse in authors as diverse as S Johnson E Chambers C Hill J Raban V Woolf N Mitchison V S Naipaul S Rushdie J M Coetzee A Ghosh

Virginia Woolf's Unwritten Histories Anne Besnault, 2021-11-04 Virginia Woolf's *Unwritten Histories* explores the interrelatedness of Woolf's modernism, feminism, and her understanding of history as a site of knowledge and a writing practice that enabled her to negotiate her heritage to find her place among the moderns as a female artist and intellectual and to elaborate her poetics of the new not as radical rupture but as the result of a process of unwriting and rewriting traditional historiographical orthodoxies. Its central argument is that unless we comprehend the genealogy of Woolf's historical thought and the complexity of its lineage we cannot fully grasp the innovative thrust of her attempt to think back through our mothers. Bringing together canonical texts such as *Orlando* 1928, *A Room of One's Own* 1929, *Three Guineas* 1938, or *Between the Acts* 1941 and under-researched ones among which stand Woolf's essays on historians and reviews of history books and her pieces on literary history and nineteenth-century women's literature, this book argues that Woolf's textual conversations with nineteenth-century writers, historians, and critics, many of which remain unexplored, are interwoven with her historiographical poesis and constitute the groundwork for her alternative histories and literary histories: unwritten, open-textured, unacademic, and polemical counter-narratives that keep track of the past and engage politically with the future.

Literature and Cultural Memory, 2017-03-06 Cultural Memory: a subtle and comprehensive process of identity formation, promotion, and transmission is considered as a set of symbolic practices and protocols with particular emphasis on repositories of memory and the institutionalized forms in which they are embodied. High and low culture as texts embedded in the texture of memory as well as material culture as a communal receptacle and reservoir of memory are analysed in their historical contingency. Symbolic representations of accepted and counter-histories and the cultural nodes and mechanisms of the cultural imaginary are also issues of central interest. Twenty-six contributions tackle these topics from a theoretical and historical perspective and bring to the fore case studies illustrating the interdisciplinary agenda that underlies the volume. Bulliet, 1998 In the parade of highlights with which many have tried to sum up the twentieth century the overarching patterns and fundamental transformations often fail to come into focus The Columbia History of the 20th Century however is much more than a chronicle of the previous century's front page news Instead the book is a series of twenty three linked interpretive essays on the most significant developments in modern times ranging from athletics to art the economy to the environment Rather than presenting a linear narrative each author uncovers patterns of worldwide change James Mayall for example writes on nationalism from the rise of European fascism to the rise of Asian and African nations Sheila Fitzpatrick traces the history of communism and socialism in Moscow and Havana In her chapter on women and gender Rosalind Rosenberg covers the progress of women's rights throughout the world from Middle Eastern activism to the American feminist movement Jean Marc Ran Oppenheim's history of sports traces the spread of Western sports to all corners of the globe and the West's appropriation of such activities as martial arts In each the important strands of history events ideas leading figures issues come together to offer an illuminating look at cultural connection diffusion and conflict showing in stark relief how this
