The Global Church---The First Eight Centuries Donald Fairbairn, 2021-05-25 Discover the Variety and Unity of the Early Church The Christian church of the early centuries spread throughout much of Asia Africa and Europe spoke many languages was situated within diverse cultural settings and had varied worship practices yet it maintained a vital unity on core teachings at the heart of the Christian faith In The Global Church The First Eight Centuries From Pentecost through the Rise of Islam author Donald Fairbairn helps readers understand both the variety and unity of the church in this pivotal era by Re centering the story of the church in its early centuries paying greater attention to Africa Turkey and Syria where most of the church s intellectual energy was nurtured Highlighting Christian communities outside the Roman Empire as far afield as Persia and India alongside those within it Identifying key events by their global not merely Western significance and taking into account early Christian interactions with other religions particularly Islam The Global Church The First Eight Centuries is an ideal introduction to the patristic era that broadens the narrative often recounted and places it more firmly in its varied cultural contexts Students of the early church formal and informal alike will appreciate the fresh approach and depth of insight this book provides [The Rowman & Littlefield Handbook of Christianity in the Middle East](#) Mitri Raheb, Mark A. Lamport, 2020-12-15 This work represents the current and most relevant content on the studies of how Christianity has fared in the ancient home of its founder and birth Much has been written about Christianity and how it has survived since its migration out of its homeland but this comprehensive reference work reassesses the geographic and demographic impact of the dramatic changes in this perennially combustible world region The Rowman Littlefield Handbook of Christianity in the Middle East also spans the historical socio political and contemporary settings of the region and importantly describes the interactions that Christianity has had with other major minor religions in the region **Readings in World Christian History: Earliest Christianity to 1453** John Wayland Coakley, Andrea Sterk, 2004 Through the advice of many scholars of Christian origins the selections here include texts that show students how Christianity developed and was lived in Asia Africa

and the Mediterranean These texts show Christian life beyond the confines of Byzantine and Western Christendom as Christians enter the Mongol and Chinese courts struggle to cope with Islam and continue to live in places such as Ethiopia and Egypt Designed for the classroom Readings in World Christian History highlights the variety of Christianities that grew out of the Palestinian Jesus Movement of the first century

Global Christianity and the Early Letters of Horace G. Underwood James Jinhong Kim, 2022-03-31 Who was Horace G Underwood and what possible significance could another missionary of the nineteenth century have to help us rethink our approach to global Christianity and mission in the twenty first century As the first Protestant missionary to set foot in Korea the last hermit kingdom Underwood is regularly credited with Christianity's unparalleled success and continuing fervent presence in Korea today including its corps of over 27 000 fulltime missionaries in 170 countries around the globe second only to the US in the number of missionaries sent to foreign lands But as extraordinary as his journey to Korea may have been for this arguably most under recognized Protestant missionary of all time it may be his journey from it that offers us vital insights for the future of missions From the making of Underwood through his formative years in England France and America to the Neo Confucian culture he encountered among the people in Korea this book culminates with the presentation and analysis of his previously unknown private letters from the years between 1884 and 1898 showing us the gradual process of interculturalization he himself underwent as a missionary that allowed him to discover and encourage global yet local expression of faith in Korea

Phan, 2014-10-02 This book provides an indispensable voice in the scholarly conversation on migration It shows how migration has shaped and has been shaped by the three Abrahamic religions Judaism Christianity and Islam No theory of migration will be complete unless the theological insights of these religions are seriously taken into account

A Scott Moreau *Toward a Common Future* William G. Rusch, 2019-05-20 This book provides a specific proposal for churches divided by centuries long disputes and disagreements to move toward a vision of the unity of the church It seeks to offer a way for divided churches to move beyond the present quagmire that challenges much of the modern ecumenical movement Building upon the theological dialogues between the churches this volume identifies and supplies a way for churches to regain a momentum that seems

recently to have been lost in the ecumenical movement Constants in Context Stephen B. Bevans, Roger P. Schroeder, 2004-01-01 Mission is handicapped without a sound biblical theology of mission and an understanding of the history of mission leading up to our current context Constants in Context offers both of these elements It is mission theology in historical perspective and or a history of mission that is grounded theologically The authors describe it as a systematic theology with mission at its core and a church history shaped by the constant but always contextual Christian traditions Furthermore it is a constructive contribution to how mission theology needs to be practical and lived out through today's church and in our world Written collaboratively by Roman Catholic writers Stephen Bevans and Roger Schroeder both Missionaries of the Divine Word SVDs It is a particularly insightful in regard to the history and the various streams of Catholic mission but it also addresses and learns from the other traditions of the church In fact one of the book's strengths is its attention to neglected aspects and hidden stories of church and mission history As a result it is gratifying to be inspired by non European mission women in mission and various forgotten or often ignored branches of the church The book is in three sections first there is a framework for cultural contexts and theological constants second an in depth exploration of historical stages and different models for mission and third a presentation of theological frameworks for mission The third section concludes with a case for mission as prophetic dialogue being the most appropriate model for 21st century mission Amazon.com Mission in the Early Church Edward L. Smither, 2014-04-28 How did Christian missions happen in the early church from AD 100 to 750 Beginning with a brief look at the social political cultural and religious contexts Mission in the Early Church tells the story of early Christian missionaries their methods and their missiology This book explores some of the most prominent themes of mission in early Christianity including suffering evangelism Bible translation contextualization ministry in Word and deed and the church Based on this survey modern readers are invited to a conversation that considers how early Christian mission might inform global mission thought and practice today

Religion, Globalization and Culture Peter Beyer, Lori Gail Beaman, 2007 The topic of religion and globalization is complex susceptible to a great variety of approaches This book combines contributions from many authors who examine a wide range of subjects ranging from overall theoretical considerations to detailed regional perspectives No single understanding of either religion or globalization is privileged *Participating in God's Mission* Craig Van Gelder, Dwight Zscheile, 2018-01-11 Explores how the church has engaged and should engage the American context What might faithful and meaningful Christian witness look like within our changing contemporary American context After analyzing contemporary challenges and developing a missiological approach for the US church Craig Van Gelder and Dwight Zscheile reflect on the long complex and contested history of Christian mission in America Five distinct historical periods from the beginning of the colonial era to the dawn of the third millennium are reviewed and critiqued They then bring the story forward to the present day discussing current realities confronting the church discerning possibilities of where and how the Spirit of God might be

at work today and imagining what participating in the triune God's mission may look like in an uncertain tomorrow **Ten Great Ideas from First Corinthians** George Renner, Mark Shaw, 2021-10-19 First Corinthians is one of the most relevant NT documents for both younger churches seeking maturity in the majority world and older churches seeking renewal in the Western world in the twenty first century The reason this epistle is so relevant is that it focuses on renewing the church through believing and living out the good news that because of Jesus's death and resurrection God has begun his new creation agenda amid the broken world of today This is not just another commentary there are many very good ones but rather we present a biblical theology of church renewal based on solid exegesis and our experience as teachers and pastors in both Africa and North America This book will pull out the essential teaching of Paul on renewal in ten manageable principles or great ideas Church renewal is not just following certain steps but results from nurturing a culture that practices both cross power and a life of new creation hope When churches make the shift from traditionalism to radical community and evangelical activism through a new experience of the gospel seen as both personal liberation and the transformation of all things the church begins to move and the world begins to change **Children of the Calling** Eric Nelson Newberg, Lois E. Olena, 2014-12-23 This volume of essays dedicated to Stan and Ruth Burgess has been written by their colleagues and students to honor them as they retire after many years of distinguished service to Evangel University Southwest Missouri State University and Regent University Several meanings can be subsumed under the title Children of the Calling Stan and Ruth grew up in India children of Pentecostal missionaries who felt they had divine callings They were influenced not only by the religious callings of their parents but also by the cultural milieu of India Though they did not personally take on board the specific missionary calling of their parents they charted life maps that benefitted from the cross cultural proficiencies developed in their childhoods in India which to a large extent colored the influence they would have on their children academic colleagues and students some of whom have submitted essays for this Festschrift The diversity of subjects in this volume attests to the breadth of the scholarly work of Stan and Ruth Burgess The first section narrates the major highlights of Stan and Ruth's academic biographies the second presents pioneering studies of biblical studies and church history and the third offers application based research and personal reminiscences The World's Christians Douglas Jacobsen, 2011-03-21 Written by an award winning author this well organized and comprehensive introduction to global Christianity illuminates the many ways the world's Christians live their faith today Covers the entire globe Africa Asia and Latin America as well as Europe North America and the Pacific Provides impartial in depth descriptions of the world's four major Christian traditions Orthodox Catholic Protestant and Pentecostal Charismatic Utilizes the best available sources to produce an up to date profile of demographic trends in the Christian population Blends history sociology anthropology and theology to create a rich multi layered analysis of the world Christian movement Features clear maps and 4 color illustrations throughout the volume
