A History of Science in Society Andrew Ede, Lesley B. Cormack, 2022-01-27 In *A History of Science in Society* Ede and Cormack trace the history of the changing place of science in society and explore the link between the pursuit of knowledge and the desire to make that knowledge useful. The fourth edition of this bestselling textbook brings the narrative right up to the present day by incorporating the COVID 19 pandemic. The edition also adds content on Indigenous and non western science as well as five new Connections case study features including one on the scientist and poet Omar Khayyam. The text is accompanied by 100 images and maps and a colour insert showing off key moments in the history of science. Essay questions, chapter timelines, a further readings section and an index provide additional support for students.

A History of Science in Society Andrew Ede, Lesley B. Cormack, 2016-08-12 *A History of Science in Society* is a concise overview that introduces complex ideas in a non technical fashion. Ede and Cormack trace the history of the changing place of science in society and explore the link between the pursuit of knowledge and the desire to make that knowledge useful. New topics in this edition include astronomy and mathematics in ancient Mayan society, science and technology in ancient India and China and Islamic cartography. New Connections features provide in depth exploration of the ways science and society interconnect. The text is accompanied by 55 colour maps and diagrams and 8 colour plates highlighting key concepts and events. Essay questions, chapter timelines, a further readings section and an index provide additional support for students. A companion reader edited by the authors *A History of Science in Society: A Reader* is also available.

Technology and Society Andrew Ede, 2019-11-07 *Technology and Society: A World History* explores the creative power of humanity from the age of stone tools to the digital revolution. It introduces technology as a series of systems that allowed us to solve real world problems and create a global civilization. The history of technology is also the history of the intellectual and cultural place of our tools and devices. With a broad view of technology we can see that some of the most powerful technologies such as education and government produce no physical object but have allowed us to coordinate our inventive skills and pass knowledge through the ages. Yet although all human communities depend on technology there are unexpected consequences from the use of technology which as Ede shows form a crucial part of this rich story.

Aslaksen, 2023-02-17 This book covers the work of Erik W Aslaksen who continues to develop the view of society and its evolution published in earlier work *The Social Bond* Springer 2018 *The Stability of Society* Springer 2020 and *Measures of Social Evolution* Springer 2021 bringing together core material of that work with the results of recent investigations in order to present the evolution of society as an integrated and continuous story leading right up to the present time A story of human action driven by our beliefs desires and an ideology arising out of our ability to transform and exploit our environment through the development and application of technology The distinguishing feature of the work is the treatment of society as an information processing system and applying the system methodology for handling complexity as it is applied e g in engineering This focus on information is particularly pertinent in the current circumstances where the world has arrived at a critical point in its history

through the conjunction of a number of issues that appear to be spiralling out of control Global warming and the associated climate change the destruction of our environment through such processes as land clearing and industrialisation with associated loss of biodiversity the rapidly increasing visibility of the inequality in the quality of life with associated tensions and above all the determination of the US led Western alliance to cling to its hegemonial role apparently at all cost With the sophistication and proliferation of nuclear weapons the latter has the potential to bring on the end of civilisation as we know it The resolution of any of these issues depends on the information available to all parties involved and hence the availability and quality of information is seen as the crucial and overarching issue of the present time A number of aspects of this issue including the role of education economic inequality and the control of the media are treated in some detail and proposals for some small steps in the right direction are put forward
